

ACKNOWLEDGEMENT

At first, I offer my deep sense of gratitude and heartfelt respect to Dr. B. K. Sarma, Professor, Department of Physics, Gauhati University, for his unstinted guidance and meticulous supervision during the tenure of my research work.

I welcome this opportunity to extend sincere gratitude to Dr. P. Phukan, Associate Professor, Department of Chemistry, for his help in carrying out the synthesis part of my work in his laboratory.

I also owe my thanks to the authorities of Gauhati University, Head, Department of Physics and Head, Department of Chemistry, for allowing me to use the concerned laboratories.

I am grateful to UGC NERO for funding the Minor Research Project.

I gratefully acknowledge Department of Chemistry, IIT, Guwahati and IISc, Bangalore for providing XRD data. A special thanks to Mr. Babulal Das, Scientific Officer, Department of Chemistry, IIT Guwahati for his valuable help.

I also remember with thanks my well wishers Rajesh, Biswapran, Dolly, Pranita, Arun, Kulakamal, Stuti and Purabi who offered various assistances at different stages of my work.

At last, I am specially indebted to my husband Dr. P. Phukan, mother Mrs. Prativa Devi, Mother-in-law, Father-in-law, sons Samak and Joonak, my dearest sister late Nimisha for their co-operation, encouragement, support and bearing with me so patiently during the whole period of my research work. My heartfelt thanks are due to all my other family members also.

Date. 22/08/12

Place. Guwahati
