ACKNOWLEDGEMENT

In any effort, the amount of help I receive from different people is often difficult to estimate, precisely much more so to acknowledge individually.

At the very outset, with an overwhelming sense of gratitude, I take the privilege to express my heartfelt thanks and sincere respect to my guide, Dr. H. Choudhury, Professor, Department of Statistics, Gauhati University, Guwahati. Not only has he shown me the way, but has led me across each step of this research work. I could conclude this research work only because of his consistent pursuance and liberal hand to complete it. I shall forever remain indebted to him for his able guidance and constant supervision.

This work was made possible through the cooperation of the children involved in the research project. I am indeed very much thankful to these six thousand children. I wish to thank the Headmasters/ Principals and teachers of the forty-six institutions that I visited in connection with the present work. I also wish to thank the Affiliation Branch, S E B A for providing the list of schools and their addresses. I take this opportunity to offer my sincere thanks to Dr. H. C. Das, Director of Secondary Education for issuing instructions to the selected schools for providing me the necessary data related to the fieldwork.

I relevantly record here my thankfulness to Dr. G. Srinivas, Deputy Secretary, U G C (N E R O) for awarding me a Minor Research Project and after that two years Teacher Fellowship under F. I. P during X plans period.

I take this opportunity to offer my sincere thanks to all faculty members of the Department of Statistics, Gauhati University, specifically to Professor H. Barua, Professor P. Sarma and Dr. L. Choudhury for their generous helps and timely advice.
In addition, I am extremely grateful to Dr. P. K. Das, Assistant professor, Department of Computer Science and Engineering, I I T, Guwahati, for kindly permitting me to make use of their sophisticated computer laboratory facilities.

My earnest acknowledgement also goes to the Librarians of Dibrugarh University (Assam), Madrass University (T. N.), Nagarjuna University (A. P.), S. V. University (A. P.), Banaras Hindu University (U.P.), J I I T (M. P.) and Calcutta University (W. B.) for allowing me to avail their library facility, while I had the opportunity to visit these universities for attending several conferences, seminars etc., organized by them.

I would remain thankful to Mrs. Indira Bardoloi, Principal, Handique Girls' College and my esteemed colleague Sri Basanta Deka for providing me constant support all throughout the study.

My acknowledgement would never be complete without thanking my well wishers Dr. Gagan C. Barua, Mrs. Santa Choudhury, Mr. Rajiv Das, Mr. Nabajit Dutta, Mr. Sanjib Kalita and Mr. Manas Gogoi for their constant help and encouragement.

Finally, I do appreciate the presence of my dear spouse Dipa and our twin kids – Anirjita and Anghsumali. They made a difference by being there whenever I needed them, specially Dipa - who maintains her job at her office and simultaneously takes the pain of typing this manuscript very meticulously and with a lot of patience, besides maintaining the house hold affairs.

Dated Guwahati
