CHAPTER VII

BIBLIOGRAPHY
Chapter VIII

BIBLIOGRAPHY

Bernheim F. and Bernheim L. C. (1945): The effect of caffeine on urea formation from ammonium salts by liver slices in vitro J. Biol Chem. 160 249

Bernheim, F. and Bernheim L. C. (1946): The effect of methylxanthines on the formation of urea in rabbits Am J Physiol. 147 428

Bienvenu T., Pons G., Rey E., Rechard M. O. D, Athis P., Oliver (1990): Effect of hypophysectomy on caffeine elimination in rats. Fundam Clin Pharmacol 4 (4) 393-399

Butcher R W and Sutherland E W (1962): Abenosine 3’5’ phosphate in biological materials purification and properties of cyclic nucleoside phosphodiesterase and use of this enzymes to characterised adenocyne 3’5’ phosphate in human urine, J. Biol. Chem., 237 1244

Cameron O G, Modull J G and Hariharan M (1990): Caffeine a human cerebral blood flow, a positron emission tomography study, Life Sciences 47 1141-1146

Chauchard P, Mazorie H, and Lecoq R (1945): Inhibition by sugars of the exciting effect the purine bases exert on the central nervous system. Societe de Biologie Seance du 13 Janvier

adrenaline and vassopressin in rat hepatocytes. Biochem J 301 (pt 3) 737-744

Cornish H. H. and A. A. Christman (1956): J. Biol. Chem. 228 315

Garrett-B E; Holtzman -S G (1994): Caffeine cross tolerance to selective dopamine D1 and D2 receptors agonists but not to their synergistic interaction. Eur.-J- Pharmacol; 262 (1-2) 65-75

Herman Baker and Oscar Frank (1968): Vitamin C estimation in Clinical Vitaminology, Methods and Interpretations, Inter-science Publishers, a division of John Wiley and Sons. New York

Hojo Y., Hashimoto I., Miyamoto Y Kawazoe S Mizutari T. (2000) In vivo toxicity and glutathione, ascorbic acid and copper level changes induced in mouse liver and kidney by copper glutamate, a nutrient supplement. Yakugaku Zasshi 120 (3) 311-4

Lewins L., (1904): Die Fruchtabtreibung durch Gifte und andere Mittel. 2nd ed., Berlin August Hirschiwald,

Mc Carty (2001): Modulation of adipocyte lipoprotein lipase expression as a strategy for preventing or treating visceral obesity, Med. Hypotheses 57 (2) 192-200

Mounfield P R and Robson L (1998): The role of Ca\textsuperscript{2+} in volume regulation induced by Na\textsuperscript{+} coupled alanine uptake in single proximal tubule cells isolated from frog kidney. J. Physiol 510 (pt 1) 145-53

Nachmansohn D. and Schncemann H (1945) On the effect of drugs on cholinesterase. J. Biol. Chem. 159 239

Newland – M C ; Brown –K (1992): Oral caffeine consumption by rats ; the role flavor history, concentration, concurrent food, and an adenosine agonist Pharmacol –Biochem – Behav. 42 (4) 651-659

Ogihara M (1993): Nifedipine and nicardipine potentiate glucagon stimulated glycogenolysis in primary cultures of rat hepatocytes Biol Pharm Bull 16 (9) 834-6

Pacher P, Csordas P, Schneider T, Hajnoczky G (2001): Quantification of calcium signal transmission from sarco-endoplasmic reticulum to the mitochondria, J. Physion. 15 529 (Pt 3) .553-564

Quazi Salamatullah, Masahiro Takahata, Hi Dehiko Yokogoshi and Akira Yoshida (1985): Effect of dietary polychlorinated biphenyls and caffeine on serum and liver lipids and urinary ascorbic acid in rats after different times. Agric. Biol. Chem. 48 (6) 1581-1586

Raya-A; Cuervo-AM; Macian –F., Romero-F-J; Roma-J (1994): Nerve conduction velocity decrease and synaptic transmission alterations in caffeine treated rats. Neurotoxicol Teratol. 16 (1); 11-15

Shi C L (1997): Effects of caffeine and acetylcholine on glucose -stimulated insulin release from islet transplants in mice. Cell Transplant 6 (1) 33-37

Pharmacological Research 381 59-64
