Acknowledgements

Words are sometime hard to find when one tries to say thanks for something, so priceless are loving criticism, considerate helpfulness and valuable guidance. To much gratitude and sincerity repel and too little leave one wanting, though facts must be evidently acknowledged and honest thankfulness must be univocally stated. This is what I humbly attempt to do here.

It was my proud previlage to have been associated with and remain under the constant vigilance of Dr. V.K. Sharma, M.D., D.C.P., Professor & Head, Department of Pathology, M.L.B. Medical College, Jhansi. I am unable to express my feelings of gratitude for his constant help as he helped me at each and every stage of this project. This study is a reflection of discerning criticism and seasoned rationale of him. His compromising standard and masterly guidance set the trend and pace for this work.

Words fail to express my deepest sense of gratitude to Dr. (Mrs.) Ratna, M.D., Associate Professor, Department of Pathology, M.L.B. Medical College, Jhansi, for her constant and consistent help. Her most precious help, keen interest, valuable suggestions and constant encouragement
to mould this work have been extremely fascinating in successful completion of work.

I deeply express my heartfelt and sincerest thanks to my Co-guides, Dr. R.P. Kala, M.S., Prof. & Head, Department of Surgery, Dr. S.K. Mishra, M.D., D.T.C.D., F.C.C.P., Prof. & Head, Department of TB and Chest diseases and Dr. R.K. Gandhi, M.D., Prof. & Head, Department of Forensic Medicine, M.L.B. Medical College, Jhansi.
