Acknowledgement of the favours received and privileges enjoyed is not simply a matter of going through a time honoured ritual. It is having the pleasure and satisfaction of discharging various debts of gratitude. Even the best calligraphy cannot sufficiently express my gratitude to those, who with such good grace gave a bucketful of strength to me in the completion of the present work.

It was my proud privilege to have been associated with and remain under the constant vigilance of Dr. S.C. Sehu, M.S., Reader, Department of Orthopaedics, M.L.B. Medical College, Jhansi throughout the period of my working on this thesis. The joy and experience of working under Dr. Sehu's guidance is really something out of this world. His invaluable suggestions, constructive criticisms, meticulous attention to details and never to be matched expertise has been primarily, if not singularly, responsible for presentation of this work in its present form. He has been a constant source of encouragement and guidance in moments of my despair and it is virtually impossible to express in words my deep sense of indebtedness and profound gratitude for him.
I must express my grateful thanks to Professor
M.M. Saxena, M.D., D.M.R.E., Head of the Department of
Radiology for his expert guidance, wise suggestions and
keen interest in this study.

My feelings of sincere gratefulness are due to
my esteemed teacher Professor P.K. Dabral, M.S., Head of
the Department of Orthopaedics, for his constant supervision,
encouragement and ever helping attitude throughout this
study.

I am highly obliged to Dr. P. Sahi, M.D., Lecturer,
Department of Anaesthesia, for his untiring help in correction of the script.

I am highly indebted and grateful to Dr. Rakesh
Sharma, M.S., Senior Research Fellow, Department of
Orthopaedics for his untiring help, constant encouragement
and support and valuable suggestions throughout the period
of this study.

I am sincerely grateful to Dr. Naeraj Garg,
Demonstrator, Department of Anatomy, who helped and
encouraged me a lot during the completion of this work
even at the cost of his personal inconvenience.
The unaccountable help of friends like
Dr. K.S. Mehta, Dr. Rajesh Jaitley, Dr. P.K. Pandey,
Dr. Shashi Agnihotri, Dr. Ashok Sirohi, Dr. Harish
Kumar, Mr. K.K. Verma and Mr. Pankaj Bhandu needs no
words to express my thanks.

I must thank Dr. H.K. Uma, D.M.R.E., for his
kind help throughout this study.

I have a heartfelt sense of gratitude for the
love and affection of my parents and other family members,
which has sustained me throughout.

My thanks are due to all technical staff of
Animal House, and the Department of Radiology, M.L.E.
Medical College, Jhansi, who were always ready to help
me even at their personal inconvenience.

I am sincerely thankful to Mr. Kallaiya Lal,
for his untiring efforts in typing this work in an
exemplary manner.

I dedicate this work to those numerous selfless
and innocent creatures who sacrificed their lives for
the purpose of this study.
