BIBLIOGRAPHY

2) The CAPRIE Study A Randomised, Blinded Trial of Clopidogrel vs. Aspirin in Patients at Risk of Ischaemic Events (CAPRIE) Lancet 1996; 348: 1329-1339

6) K. Park, Preventive and social Medicine, sixteenth edition, Banarsidas Bhanot Publications.

7) Is clopidogrel superior to aspirin in secondary prevention of vascular disease?

Algra A, van Gijn J.

8) Generalizing the results of clinical trials to actual practice: the example of clopidogrel therapy for the prevention of vascular events. CAPRA (CAPRIE Actual Practice Rates Analysis) Study Group. Clopidogrel versus Aspirin in Patients at Risk of Ischaemic Events by Caro JI,

12) Value of antiplatelet therapy in preventing thrombotic events in generalized vascular disease by Montalescot
13) Evidence with antiplatelet therapy and ADP-receptor antagonists by Easton JD. Department of Neurology, Brown University, Providence, RI, USA.

14) Preventing ischemic stroke. Current approaches to primary and secondary prevention by Ingall TJ. Mayo Medical School, Rochester, Minnesota, USA.

15) The results of IST and CAST (International Stroke Trial).

Chinese Acute Stroke Trial by Dippel DW. Department of Neurology, University Hospital Rotterdam, The Netherlands.

16) Hankey, GI, Sudlow, CL, & Dunbabin, DW: Thienopyridines or aspirin to prevent stroke and other serious vascular events in patients at high risk of vascular disease? A systematic review of the evidence from

17) Thienopyridines or aspirin to prevent stroke and other serious vascular events in patients at high risk of vascular disease? A systematic review of the evidence from randomized trials.

18) AITIA (Aspirin in Transient Ischemic Attacks)

Coordinated by W S Fields, University of Texas Health Science Center, Houston, TX.

19) AAASPS (African American Antiplatelet Stroke Prevention Study) Coordinated by
