ACKNOWLEDGEMENT

At the outset, I take the privilege of expressing my profound sense of gratitude to Dr. G.R. Rao, retired Professor & Head, Department of Plant Science, Bharathidasan University, Tiruchirapalli - 24 and retired Emeritus Scientist, Department of Environmental Sciences, Nagarjuna University, Guntur (Andhra Pradesh) and presently Chairman G.R. Rao, Education, Training and Research Foundation, Hyderabad for his guidance, encouragements followed by intellectual criticism and warm encouragement evinced throughout the period of study.

This work was carried out at the Dept. of Plant Science, Bharathidasan University.

I accord my deep sense of gratitude to Dr. G.L.N. Prasada Rao, Director, Pasteur Institute of India, Coonoor for his kind help and the opportunity provided to make best use of the facilities available in the institute.

My sincere thanks are due to Dr. Udaya Baskara Rao, Deputy Director, Pasteur Institute of India for his kind help.

I am to thank profusely, Dr. M.V. Rao, Reader, Department of Plant Sciences, Bharathidasan University for reading the manuscript critically and doing the needful corrections. Without his constant help, it would not have been possible for me to submit the thesis in the time stipulated by the supervisor.

Words are inadequate to express my deep sense of gratitude to my beloved parents, brother, my husband and my friends for their cooperation in completing of this work.

Bharathidasan University
Tiruchirappalli - 620 024.
