ACKNOWLEDGEMENT

This work was done under the constructive criticism and support of Dr. Gopal Bardoloi. His excellent supervision, patience and advice have helped me a lot from the process of writing the research proposal and preparation for fieldwork until the end of the writing process. I wish to sincerely thank him for having acted as my guide during the period.

I also wish to express my deepest appreciation to my teachers of Gauhati University and faculty of IITG who have provided a great deal of valuable advice. I would like to extend my sincere thanks to the library staff of Gauhati University, IITG, Omeo Kumar Das Institute of Social Change and Development, Indian Institute of Entrepreneurship, Tata Institute of Social Sciences and Bombay University. I also like to thank my friends who have given their valuable time and advice. I am also deeply indebted to the members of sStep (Society for Social Transformation and Environmental Protection) without whose help fieldwork would have been impossible and Indian Council of Social Science Research (ICSSR) New Delhi for providing me the doctoral fellowship.
Most importantly, my thanks should go to my parents Mrs. Renu Chetia and Late Golap Ch. Chetia and to my husband Mr. Dilip Boro and my family members for their constant support, encouragement and prayers to God that gave me the power to complete this study.

I would also like to extend my thanks to my friends and well wishers for their ever willing help and support. I am also grateful to Mr. Sanjib Saikia and Mr. Dhrubajyoti Sarma of IIT Guwahati for composing computer graphics.

And above all, I thank my two sons Apurbashakti (Jojo) and Nabashakti (Bobo) who understood my problems and have sacrificed their early childhood. I also thank my wonderful Lord who is always present in my spiritual life especially in times of difficulties and gives me the answer to these difficulties while this study was being completed.

Date  \[18-11-10\]
