ACKNOWLEDGEMENT

The thesis entitled "Structural variations in response to diverse habitat conditions of some important medicinal plants of Assam (India)" has been presented for the degree of Doctor of Philosophy in Botany, under faculty of Science, Gauhati University, Assam, India. I am deeply indebted to my teacher Prof. S.K. Sarma, Department of Botany, Gauhati University who has so kindly given me the opportunity to work under his supervision. It gives me great pleasure to express my deep sense of gratitude to him, for his adequate guidance, useful suggestions and invaluable help without which it would have not been possible for me to complete the study.

I express my sincere gratitude and appreciation to Professor S.P. Bora, Professor D.K. Jha and Dr. B. Tanti, Department of Botany, Gauhati University, for their valuable suggestion and encouragement during the course of my research work.

I also highly grateful to Professor S. Sharma, Department of Biotechnology Gauhati University for his kind help and suggestion during my research work.

I am thankful to the Librarian and staff members of K.K. Handique Library, Gauhati University for helping in the Library works connected with the thesis.

My special thanks goes to my son Nilim Deka (Mon) for his co-operation in completing my research work.

I would have failing my duty if I do not express my gratitude to father Mr. Sudhir Rn. Mazumder, mother Mrs. Bijoya Mazumder for their co-operation, sacrifice and inspiration.

I would like to express my special thank to my elder brother Dr. Amitabh Mazumder for his inspiration and encouragement without which it would have not been possible for me to complete my research work.

Last but not the least, I indebted to my husband Mr. Arup Deka for his encouragement and positive gesture in completing my research work.
