ACKNOWLEDGEMENTS

First of all, I bow with deepest heartfelt regards in the holy feet's of LORD SHIVA for listening to me in the time of need and showering choicest of His blessings to help me achieve targets.

I owe my sincere thanks and gratitude to my supervisor Dr. Rakesh Kumar Bholu, Professor, Department of Zoology, Gauhati University, Guwahati, for guiding me, standing by me, understanding me and believing in my capabilities throughout the study period. I am indebted to him for guiding me some major lessons of life and strengthening my views with his invaluable suggestions. He is a great thinker and I was indeed privileged to have a friend and guide in the same person. I am thankful to Head, teaching faculty and supporting staff of Department of Zoology, Gauhati University, Guwahati, for regular guidance, suggestions and support during the study.

I wish to express special thanks to Dr. Lokendra Singh, Director Life Sciences, DRDO, for his continuous support at each and every step of the entire course. I take this opportunity to express my profound gratitude and deep regards to Dr. Vijay Veer, Director, Defence Research Laboratory (DRDO), Tezpur, for his exemplary guidance, monitoring and constant encouragement not only throughout the course of this thesis but always. The blessing, help and guidance given by him time to time shall carry me a long way in the journey of life on which I am about to embark. A special gratitude, I extend to Dr. Neena Chauhan, Scientist, Forest Research Institute (FRI), Dehradun (UK), whose contribution in the form of stimulating suggestions and encouragement helped me to coordinate my objectives during the research.

I also take the opportunity of thanking Bipul Rabha, Diganta Goswami, PK Talukdar, S Hazarika and Dr. Indra Baruah of Medical Entomology Division, Defence Research Laboratory (DRDO), Tezpur, for their valuable support and help in the laboratory and field during the study.

I wish to thank Dr. Pronobesh Chattopadhyay, Scientist, Defence Research Laboratory (DRDO), Tezpur, for his timely invaluable suggestions for thesis writing and submission. I thank Dr. Saumen Banerjee, Scientist, Defence Research Laboratory (DRDO), Tezpur, for help, sincere advice and copyediting the thesis.

I am also deeply indebted to Dinesh Kumar of Medical Entomology Division, Defence Research Laboratory (DRDO), for extending relentless help in the laboratory work. I would like to thank to PK Sarkar, Retd Scientist, Defence Research Laboratory (DRDO) for his continuous support and advice during the study.
Furthermore I would also like to acknowledge with much appreciation the crucial role of the technical staff, including Sukh Ram Boro, Ranjit Baruah, Mohan Daimari and Buboi Gwala of Medical Entomology Division for support and assistance during the field collections and laboratory experiments. My special thanks go to MT staff, administration staff and MMG staff of Defence Research Laboratory (DRDO), Tezpur for looking after transport, logistics and store requirements during the entire study. It would not have been possible without the blessings and support of my respected Mother and Father. They have been the source of ceaseless inspiration and constant encouragement for working hard and achieving the targets. I feel short in words for expressing my feelings towards their love, care and patience. Thanks to my sister Neelam and brother Sanjeev for their friendship and emotional support. I must reserve my special and heartfelt thanks to my better-half Kavita, without her name my acknowledgement can never be complete. She was instrumental in standing by me throughout the major hurdles, helping me bring this tireless work to a presentable state and helping me shaping up the results to final form. Her patience and hard work is highly acknowledged. From the core of my heart, I offer lovable thanks to my son, Sanskar for being an endless source of happiness and stress relief without any complaint and regret. Pursuing a Ph.D. project is a painful experience, but still a lifetime achievement. It is all about reaching the peak, while facing hardships, frustrations, bitterness and seeking encouragement, trust and help of countless people during the course. Now, while at the peak, I realized that it was resulted out of the teamwork and efforts of many people and I have acknowledged a few only. Though, I would not be able to express my gratitude in words to all, but still I give deep sense of appreciation to all those, who helped directly or indirectly and enabled me to complete this Ph.D. project.

(Sunil Kumar Dhiman)
