### CHAPTER- 1 (INTRODUCTION)  
1-26
A. Origin of the Environmental thought and the *Mahâbhârata*. 1-10
B. Perception of the Environment in the *Mahâbhârata*. 10-12
C. Environmental concepts as revealed in the *Mahâbhârata*. 12-13
D. Scope & Objective of the study. 13-14
E. Chapter-wise distribution of the topic. 14-26

### CHAPTER- 2 (NATURAL RESOURCES AND THEIR CONSERVATION IN THE MAHÂBHÂRATA)  
27-60
A. Worship of trees: The best way of preserving forest resources. 30-41
B. Adoration of birds and animals. 41-45
C. Preservation of natural & artificial sources of water: A requirement for ecological balance. 45-47
D. Homage to the rivers: Adoration of nature. 47-51
E. Mountains: The symbols of sanctity. 51-53
F. Worship of oceans: The highest esteem to nature. 53-54
G. Tirthas: The centers for preservation of biodiversity. 54-57
H. Innovative idea of Vedavyāsa for preservation of natural resources.
- Nāvyāstraṇaḥ. 57-58
- Artificial forest. 58-60

CHAPTER - 3 (CONCEPT OF SUSTAINABLE DEVELOPMENT IN THE MAHĀBHĀRATA)
A. Rational exploitation of natural resources. 64-69
B. Rational consumption of natural resources. 69-70
C. Careful utilisation of forest resources. 70-71
D. Restoration of used resources. 71-74
E. Judicious exploitation of the Earth. 74-79

CHAPTER - 4 (NATURAL JUSTICE AND ENVIRONMENTAL ETHICS IN THE MAHĀBHĀRATA)
A. Ahiṃsā (Nonviolence) 82-86
B. Tradition of Vaiśvadeva Sacrifice. 86-89
C. Crime and Punishment and Remedial measures. 90-97
D. Justice to nature. 97-98
E. Consequence of injustice to nature. 98-100
F. Administrative role in maintaining natural justice and environmental ethics. 100-104

CHAPTER - 5 (INTERDEPENDENCE, CO-EXISTENCE AND INTERRELATIONSHIP IN THE ENVIRONMENT)
A. Correlation of the animals and forests. 123-125
B. Interdependence in the food-chain. 125-128
C. Interaction of the human beings with other living and non-living objects of nature. 128-132
### CHAPTER - 6 (PROBLEMS OF THE ENVIRONMENT IN THE MAHĀBHĀRATA)

A. Ecological imbalance. 152-156
B. Aruṇa, the charioteer of the Sun and the savior of the Earth. 156-159
C. Demonic principles: The causes of artificial crisis of the environment. 159-161
D. Mismanagement in the administrative sector leads to artificial crisis of the environment. 161-163
E. Avoiding attitude of the authorities leads to environmental disorder. 163-164
F. Lack of ruling authorities causes environmental disorder. 165-166
G. Noise pollution. 166-170
H. Hazardous substances: Hazards for the environment. 171
I. Air pollution. 171-173
J. Value degradation degrades the quality of the environment. 173-184
   - Description of Kaliyuga. 173-181
   - Submergence of Dvārakā caused by moral degradation of the Yādavas. 181-184
K. Explosion of population creates environmental problems. 184-186
L. Preventive measures to minimise the degrading factors of the environment. 186-192

### CHAPTER - 7 (CONCEPT OF ENVIRONMENTAL MANAGEMENT IN THE MAHĀBHĀRATA)

A. Role of the administrators. 194-200
   - Dusmanta's administration. 194
- Administration of Yudhiṣṭhira. 194-195
- Good-ruling of Śāntanu. 196
- Benevolent supervision of illustrious Bhīṣma. 197
- Generous rule of Rāma. 198
- Good governance of Suhotra. 199-200

B. Allotment of posts for the protection of animals. 200-201
C. Sacrifice: The age-old device for environmental purification. 201-204
D. Basic approach of environmental management.
   - Forest management. 204-206
   - Water management. 206-209
E. Precautionary measures. 209-210
F. Preventive measures. 210-212

CHAPTER - 8 (CONCLUSION) 213-221

BIBLIOGRAPHY 222-237
