ACKNOWLEDGEMENT

It is indeed a great pleasure for me to express my immense gratitude to my research supervisor and guide Dr. M. Krishnan, Lecturer, Department of Biotechnology, School of Life Sciences, Bharathidasan University, Tiruchirappalli. His vast wealth of knowledge in this complementary domain have been precious to me and this thesis owes much to his open mindedness and friendliness. I am much grateful to him for his great consideration and care at every stage of observation, discussion and pointed conclusion.

Grateful acknowledgement is made to Dr. K. V. Krishnamurthy, Professor and Head, Department of Plant Science, Co-Ordinator, School of Life Sciences, Bharathidasan University, Tiruchirappalli for his kindness and moral support during the tenure of my work.

I owe my thanks to Dr. M. Vivekanandan, Professor and Head, Department of Biotechnology, School of Life Sciences, Bharathidasan University, Tiruchirappalli for his help to carry out the research work in the Department.

I am gratefully indebted to Dr. (Mrs.) P. Geraldine Veronica Vimala Rani, Lecturer, Department of Animal Science, School of Life Sciences, Bharathidasan University, Tiruchirappalli who with enthusiasm, patience and kindness provided me with
inspiration and guided me through a forest of edited manuscript. It is my unfail duty to take this opportunity to acknowledge her for her enormous amount of assistance.

I would like to express my sincere gratitude to Dr. G. Subramanian, Professor and Head, Department of Microbiology, School of Life Sciences and Director, National Facility for Marine Cyanobacteria (NFMC), Bharathidasan University, Tiruchirappalli for having permitted me to make use of the facilities.

I also record my thanks to Dr. A. S. Rao, Reader and Dr. A. Ganapathi, Lecturer, Department of Biotechnology, School of Life Sciences, Bharathidasan University, Tiruchirappalli for their interest towards my work.

I wish to record my thanks to Dr. S. Dhanuskodi, Lecturer, Department of Physics and Dr. R. Renganathan, Lecturer, Department of Chemistry, Bharathidasan University, Tiruchirappalli for their moral support and encouragement during my study.

I record my grateful and sincere gratitude to Dr. K. Vijayaraman, Lecturer (S. S.), Department of Zoology, Periyar E. V. R. College, Tiruchirappalli for his moral support, brotherhood affection and academic guidance right from the beginning of my academic and research career. It is my bounden duty to express my indebtedness to him and his family members for their unrestricted help.

The final form of the thesis owes much to the critical remarks and competence of Dr. Philip A. Thomas, Associate Professor, Department of Microbiology, Institute of
Ophthalmology, Joseph Eye Hospital, Tiruchirappalli who has corrected the entire thesis and made useful suggestions. His influence towards academic excellence motivated me to a great deal in the piece of my work.

I acknowledge with gratitude the help rendered by Prof. O. Yamashita, Laboratory of Sericultural Science, School of Agriculture, Nagoya University, Nagoya, Japan who was kind enough to provide the antibodies for storage proteins.

I record my sincere gratitude to Prof. Dr. David Livingstone, Director, Centre for Distance Education, Madras Christian College, Tambaram, Madras for his deep sense of inspiration and guidance in several ways during the period of my work.

I acknowledge with gratitude to Prof. Dr. T. J. Pandian, Head and Professor, School of Biological Sciences and Dr. S. Mathavun, Professor, Department of Animal Genetics, School of Biological Sciences, Madurai Kamaraj University, Madurai for having rendered technical expertise and useful suggestions.

It is my duty to express my gratitude to my teachers, Dr. S. Thangavelu, Professor, P.G. Department of Zoology, Jamal Mohamed College, Tiruchirappalli; Dr. K. Balasubramanian, Reader, Department of Endocrinology, P.G. Institute of Basic Medical Sciences, University of Madras, Madras; Dr. George John, Lecturer, Department of Zoology, A. A. Arts College, Musiri; Mr. P. Loganathan, PGT, Kendriya Vidyalaya, Tiruchirappalli and Dr. K. Periyasamy, Professor, Department of Zoology, Sri A. V. V. M. Pushpam College, Poondi, Thanjavur for their constant encouragement.
I extend my best thanks to my friend Mr. M. Rabeeth, Research Scholar, Department of Zoology, Kongunadu Arts and Science College, Coimbatore for his meticulous assistance in several ways while carrying out this work.

I thank my colleague Mr. K. M. Subburathinam, CSB-Senior Research Fellow, Department of Biotechnology, Bharathidasan University for his unerring help.

I express thanks to my fellow colleagues Mr. G. Ravikumar and Mr. U. Balasubramaniam, Lecturers, Department of Zoology, Sri A. V. V. M. Pusham College, Poondi, Thanjavur for their encouragement.

I also thank Miss. X. Nirmala, Miss. V. Vani Sree, UGC Research Fellows, Department of Biotechnology and Mr. J. Kaliampurthy, UGC Project Fellow, Department of Animal Science, School of Life Sciences, Bharathidasan University, Tiruchirappalli from whom I have benefited considerably.

A special note must be made of Dr. L. Uma, Dr. D. Prabaharan, Dr. S. Sekar, Dr. N. Tajudeen, Dr. M. Sundararaman, Lecturers, Mrs. V. Sophia Rajini CSIR-SRF and Mr. G. Ganesan, Research Fellow, Department of Microbiology, School of Life Sciences, Bharathidasan University, Tiruchirappalli who with patience and kindness provided me with inspiration during the tenure of my research work.

I would like to thank a good many friends, Miss. A. Yamuna, Miss. V. Kabila, Mr. Z. Zayapragassarazan, Mr. P. Saravana Bhavan and Mr. R. Kannan and Mr. A. Rajendiran,
Research Scholars, Department of Animal Science, Mr. S.M. Anas and Mr. K. Kathiran, Research Scholars, Department of Biotechnology, Dr. V. Nandagopal, Research Associate, Department of Plant Science and Dr. G. Prem Kishore, CSIR-Research Associate, Department of Animal Science, School of Life Sciences, Bharathidasan University, Tiruchirappalli for their help in differing ways during my course of work.

I gratefully acknowledge Mr. M. Kaviarasan, Mr. R. Govindan and Mr. T. Subramanian for their timely assistance.

I express my thanks to Dr. K. Jagadeesh Babu, Research Associate and Mr. M. Mayilvaganan, Junior Research Fellow, School of Biological Sciences, Madurai Kamaraj University, Madurai for their timely help in my methodology work.

I gratefully thank the authorities of University Scientific and Instrumentation Centre (USIC), Madurai Kamaraj University, Madurai for their excellent densitometer scanning work.

It is my duty to express my thanks to Mr. R. Seenithasan, Madurai Kamaraj University, Madurai, Mr. T. Kingsley, T. Senthilkumar and R. Sudagopal, Akin Computer Software, Tennur, Tiruchirappalli and Mr. R. Madhusudhan, Softking Computers, Crawford, Tiruchirappalli, for their unfailing help in executing the final form of the thesis.

I am much indebted to Central Silk Board (CSB), Bangalore for granting me Junior Research Fellowship (JRF), through National Sericulture Project under World
Bank Scheme and Council of Scientific and Industrial Research (CSIR), New Delhi for granting me Senior Research Fellowship (SRF) to enable me to pursue this small piece of work.

Lastly those who most deserve my thanks are my parents and family members from whom I was taken for many days by this thesis.
