ACKNOWLEDGEMENT

I owe a deep sense of gratitude to my mentor and guide, Dr. Sandeep Grover, Professor and Head, Department of Mechanical Engineering, YMCA Institute of Engineering Faridabad, for his continuous guidance, valuable advice and suggestions from time to time. Without his motivation and guidance this task could not have been accomplished. I admire greatly the ease of my access to him and his availability for me even at the cost of his personal comfort, and my encroachment on his family’s time.

My thanks are also due to Dr. Ashok Kumar, Director, YMCA Institute of Engineering, Faridabad who always supported and encouraged me in my work and extended guidance and a helping hand.

I am grateful to the Dr. M.K. Soni, Director, Career Institute of Technology and Management, (CITM) Faridabad, Dr. B.S. Gill, Head of Mechanical Engineering Department, (CITM) Faridabad, and also the authorities of CITM for their positive and encouraging attitude. My sincere thanks to all my colleagues in CITM as well as in YMCA Institute of Engineering Faridabad, who were always cooperative and nice to me during my work, and specifically, Sh. S.K. Bhatnagar, my colleague and friend who helped me by incorporating his useful suggestions quite often.

Words of thanks, especially to my wife Sadhna who always stood by my side in all my work to encourage and support me whenever I would go in low profile and my daughter Surbhi who completely took charge of the domestic responsibilities and affairs to emancipate me completely from family obligations. I deeply regret for the loss of time to my family due to my deep involvement in my work during a couple of years.

Further, I am obliged to my all elders and seniors in my family who blessed me for accomplishing this task and to all those who were directly or indirectly involved in this work.
