Acknowledgements

Here is my acknowledgement page of my Ph.D. thesis. Well, the list of the people I need to thank will not fit to a single Acknowledgement Section. I will just mention some people whose contribution is obvious.

Completing my Ph.D. thesis is probably the most challenging activity in my entire scientific carrier due to many ups and down in my personal as well as in my professional life. I thank almighty GOD for making dreams come true. Completion of my Ph.D. would not have been possible without the sincere guidance of Prof. P.K. Mohapatra, Head, Actinide Chemistry Section and hence my first debt of gratitude must go to him. He patiently provided the vision, encouragement and advice, necessary for me to proceed through the doctoral program.

It is my pleasure to express my sincere and heartfelt thanks to Dr. S.A. Ansari and Dr. D.R. Raut for their active help and continuous support at all stages of this work. I would also like to thank Miss Neelam Soni, Mr. Pankaj Kandwal, Mr. Rajesh Gujar and Dr. P.N. Pathak for their help and support. I am also thankful to the technical and administrative staff of Radiochemistry Division for their immense help during the entire course of this work. I thank to all persons who helped me directly or indirectly during this work.

Also, I would like to express my gratitude to Mr. S.G. Markandey, Head, Planning and Coordination Division, Dr. V.K. Manchanda, former Head, Radiochemistry Division, Dr V. Venogopal, former Director, Radiochemistry & Isotope Group, Dr. R.B Grover, former Director, Knowledge Management Group, for their support, guidance and helpful suggestions. Their guidance has served me well and I owe them my heartfelt appreciation.

I wish to thank my parents, Shri Sudhir Kumar Dutta and Smt. Arati Dutta, and my grandma Smt. Shibani Das. I will also take this opportunity to thank my brother Debabrata and sister Reba. Their love provided my inspiration and was my driving force. I owe them everything and wish I could show them just how much I love and appreciate them. My wife, Baishakhi, son Upamanyu and my mother-in-law Smt. Shyamoli Banerjee, whose love and encouragement allowed me to finish this journey and I wish to give them my heartfelt thanks. Finally, I would like to dedicate this work to my late father. I hope that this work makes you proud.
