Ma, Baba
&
Seemita
Acknowledgements

This thesis owes its existence to the help, support, encouragement and inspiration of many people. It is indeed a pleasure to express my deep gratitude to my guide Dr. (Mrs.) S. R. Bharadwaj, Head, Fuel Cell Materials and Catalysis Section, Chemistry Division, BARC for her invaluable guidance and constant support and encouragement during the entire course of this study.

Sincere thanks are to Dr. A. K. Tripathi and Dr. M. R. Pai who introduced me to the field of heterogeneous catalysis and taught several aspects of thermal catalysis and photocatalysis.

I sincerely acknowledge the support and encouragement rendered to my research work by Prof. T. Mukherjee, Director, Chemistry Group and Dr. D. Das, Head, Chemistry Division.

Chairman (Dr. D. Das) and members (Dr. C. G. S. Pillai, Prof. A. K. Tyagi, Dr. V. K. Jain) of the doctoral committee are gratefully acknowledged for their critical review and suggestions during progress review and pre-synopsis viva-voce.

It is my pleasant duty to thank Shri C. S. R. Prasad, Head Chemical Technology Division, BARC for enlightening me with the engineering aspects and applications of our work and Dr. P.K. Sinha, Head, ECMS, BARC for his help in the preparation of oxides of iron in large scale. I also sincerely thank Dr. R. Tewari (MSD, BARC) for recording the TEM images, Dr. Anshu Singhal (ChD, BARC) for preparation of indium titanate nanoparticles by solvothermal method, Dr. A. Arya for helping me with the theoretical results, Shri. Jagannath (TPD, BARC) for recording the XPS spectra, Shri. N. Manoj (ChD, BARC) for recording the SEM images of our samples, Shri. S. S. Meena (SSPD, BARC) for recording the Mossbauer spectra, Shri. Siddharta Kolay (ChD, BARC) for recording the EGA spectra and Mrs. Archana Gaikwad (ChD, BARC) for her help in analysis of products of reaction by titrimetry. I express big thanks to my colleagues Dr. K. Bhattacharyya, Dr. B. P. Mandal, Dr. S. Verma, Shri D. Tyagi, Shri. Asheesh Kumar for useful scientific discussions with them and maintaining a cordial environment. I also express my appreciation to Mr. Ganesh Mane for his assistance. The nice and congenial environment provided by other members of Chemistry Division is also worth mentioning.
I would express special thanks to my wife Seemita for her constant, support encouragement and useful scientific discussion.

I wish to express my sincere gratitude and indebtedness to my parents for their love and blessings on me. I am also grateful to my brother for being caring, loving and helpful to me. Finally I would like to give credit and love to my daughter Asmita, for her support and love at home.
