ACKNOWLEDGEMENTS

I have the opportunity to express my deepest sense of gratitude in words to my revered guide Dr K.G. Bhattacharyya, Professor, Department of Chemistry, Gauhati University, Guwahati, for his immense help from beginning to end with constant inspiration and supervision. I am also grateful to Prof. B.C. Goswami, Former HOD, and Prof. P. J. Das, present HOD, Chemistry, for providing all the facilities in the laboratory to complete this work.

I am grateful to UGC North Eastern Regional Office, Guwahati, for awarding me Teacher Fellowship under FIP for two years to pursue this work.

I would like to thank Dr C.R. Dutta, Principal, Bahona College, for allowing me to take up this work under a UGC Teacher Fellowship. I must thank my colleagues, specially the teachers of the Chemistry Department of Bahona College for their support and encouragement. I never forget the help of my colleagues Dr Sumbit Chalitha, Deptt. of Physics and Jayanta Bordoloi, Deptt. of Computer Science for teaching me computer and also Dr Prasanna Dutta, Deptt. of Zoology, for helping me to take photographs of different sampling sites.

I offer my heartiest thanks to my nephews Rajib, Baba, Maina and also my sister in law Ranu Bou for helping me in sample collection during the entire study period. I am also grateful to my brother Monoranjan Goswami and uncles Binanda Baruah and Jogananda Goswami for supplying information regarding the study area.

Sincere thanks go to my beloved sisters cum co-workers Nibedita, Suranjana, Jyotirekha and Susmita, who were my computer teachers at the beginning and without whose help I would not have been able to complete this thesis. I offer my love and thanks to my co-worker Bidyut Jyoti Sharmah for helping me to operate AAS. I would like to offer my sincere thanks to Monidipa, Gitimoni, Gitali, Ajoy and others for their help, encouragement and support in all respects. I offer my heartiest thanks to Ms Ranjita Bhattacharjee, ex- HOD, English, Bahona College, for helping me to write about the study area.

At last but not the least I must thank my husband Baikuntha Baruah who, by taking all the responsibilities of my family, made me free to stay in the Gauhati University campus and to devote to my study. I also thank both of my daughters who, by accepting my absence in the family helped me to study.

Finally, I fully accept all the responsibilities for any omission, errors or other defects that may have remained in this thesis.

Dipti Goswami
