ACKNOWLEDGEMENTS

This research work leading to a doctoral degree is an enduring and persistent effort of my life. It would not have been accomplished without the selfless support and encouragement of many persons.

I am deeply indebted and wish to express my sincere gratitude to my guide Prof. Dr. Yogesh T. Jasrai (now voluntarily retired), Department of Botany, University School of Sciences, Gujarat University, Ahmedabad, for his invaluable guidance, encouragement, critical comments and constant inspiration throughout the course of this investigation.

I also extend sincere gratitude to Dr. A. U. Mankad, Head of the Department of Botany as well as Dr. H. A. Pandya and Dr. H. A. Solanki for providing a healthy atmosphere in the department.

I am deeply thankful to Prof. Dr. M. V. Rao (Head of the Department of Zoology) who permitted me to perform HPTLC analysis at their department. I am also thankful to Dr. Jaishri (Scientist at Shrusti) and Mrs. Prachi Patel, who helped me in successful completion of HPTLC analysis. I am thankful to Mr. S. Prasanth kumar, whose valuable technical suggestions helped me to completion of thesis.

The word fails me to express my greatest inspiration, constant encouragement, blessing, moral and emotional support as well as the love of my family members, Mr. Ranchhodbhai Parmar, Mrs. Parvatiben Parmar, Shraddha and Rohinee.

I express heartfelt thanks to my friends, Mrs. Jagruti, Dr. Deepika, Dhara, Rashmi, Urvi, Yogesh as well as my all well wishers of the department who directly or indirectly gave me moral support and helped me in successful completion of this work.
