ACKNOWLEDGEMENTS

This research work leading to a doctoral degree is an enduring and persistent efforts of my life. It would not have been accomplished without the selfless support and encouragement of many persons. I am thankful to the Almighty for his providence, grace and mercy upon my life and for his divine enablement.

I am deeply indebted and wish to express my sincere gratitude to my guide, Dr. Yogesh T. Jasrai, Former Professor and Head, Department of Botany, University School of Sciences, Gujarat University, Ahmedabad, for his invaluable guidance, encouragement, critical comments and constant inspiration throughout the course of this study.

My heartiest thanks to Dr. Himanshu A. Pandya, Co-Guide, Applied Botany Centre, Department of Botany, Gujarat University, Ahmedabad, for his kind support, valuable time, patience and energy that he willingly spared. I thank Dr. Archana U, Mankad, Head, Department of Botany, Gujarat University for providing me the necessary facilities, help and support in carrying out this study. I extend my gratitude to Dr. Hitesh A. Solanki, Associate Professor, Department of Botany, Gujarat University, Ahmedabad for his support.

I express my profound appreciation to Dr. Rakesh M. Rawal, Senior Scientific Officer and Head, Division of Medicinal Chemistry and Pharmacogenomics, Gujarat Cancer and Research Institute (GCRI) for valuable guidance at every step of the research, which really helped me to understand and appreciate the basics of this research. I personally consider him as my best well-wisher for his guidance at the budding stage and showed me gateway to Gujarat University to pursue doctoral studies.

I am really indebted to Dr. Linz-Buoy George, Dr. Hyacinth N. Highland and Dr. Mandava V. Rao, Department of Zoology and Biomedical Technology, for their constant encouragement and research discussions. I specially thank Dr. Prakash C. Jha, Central University of Gujarat, Gandhinagar for fruitful insights and collaborations. I am extremely grateful to all the other teaching and non-teaching staff of Applied Botany Centre who helped me from time to time.
It was impossible to pursue my doctoral studies without the generous support from the Department of Science and Technology (DST), INSPIRE Scheme, Govt. of India, New Delhi, in the form of Junior- and Senior- Research Fellowships.

I take this opportunity to sincerely thank my colleagues, Saumya K. Patel, Ravi G. Kapopara, Mehul I. Patni, Yogesh B. Patel, Ruby G. Patel and Vilas R. Parmar for their precious company and encouragement. I am also delightful to acknowledge Dr. Rahul P. Modh, Dr. Manishkumar B. Patel and Nikunj N. Valand, Chemistry Department for teaching me the real tactics behind synthetic and supramolecular chemistry. Thanks are also due to Mrs. Sukanya P. Raval for her last minute proof reading and programming.

Words are not enough to express my deep sense of gratitude to my juniors (in alphabetical order), Chirag N. Patel, Kumari Rashmi, Nitya R. Chavda, Rikin D. Patel, Shilpa Shetty S., Umerfaruq M. Qureshi, Vijay P. Mehta and Vishal H. Desai, for their continuous monumental support and livelihood in my life.

I owe a great debt of gratitude to my beloved Parents without whom, I could not have made this possible. It is with due thankfulness that I remember all who have been instrumental in guiding or supporting me for the completion of this research investigation.
