ACKNOWLEDGEMENTS

At the very onset, I sincerely express my deep thankfulness to ‘Almighty God’ for His Grace and Help in all my endeavors, for making my life more beautiful and for giving me the opportunity as well as for bringing me this far in my educational career. May your name be exalted, honoured and glorified.

I wish to express my deep sense of gratitude, regards and sincere thanks to my learned and revered mentor Dr. Habibur Rahman, Joint Director, ICAR, Tadong, Gangtok, for his able guidance, constructive counsel, editing of the manuscript, untiring help and constant inspiration throughout the study that paved the way for successful completion of my thesis. It is known that the mediocre teacher tells, the good teacher explains, the superior teacher demonstrates and the great teacher inspires. I lack in vocabulary to express my deep sense of ever indebtedness to him.

It gives me great pleasure to express my deep gratefulness, gratitude, regards and thanks to my guide Dr. Manab Deka, Reader, Department of Biotechnology, Gauhati University, Guwahati, for his valuable suggestions, priceless support, correction and editing of manuscript and untiring enthusiastic approach throughout my study. In addition, he was accessible and always willing to help his students with their research. As a result, research life became smooth and rewarding for me.

Undoubtedly, I must admit that interdependence is a higher value than independence. This piece of work is a synergistic product of many minds. I
express my sincere thanks to my brother Mr. B.D. Goswami and sister-in-law Mrs. Poonam Goswami for their moral support, inspiration, love and purity of soul.

I am sincerely indebted to Dr. N. N. Dutta, C.M.D., down town hospitals pvt. Ltd., for allowing me to carry out my research work.

I am deeply grateful to Dr. J. B. Kalita, MD. (Microbiology) for rendering her honest support.

I express my thankfulness and gratitude to Dr. Bimal Borah, Chief of Lab, Dr. Lalpath labs Pvt. Ltd., Guwahati, for his support and co-operation.

My profound gratitude and thanks are extended towards Dr. Lily Goswami, Ph.D., Mr. D. K. Goswami and Dr. D. Goswami for their invaluable support and co-operation time to time.

I fell deep sense of gratitude to Dr. Ramie H. Begum and Ms. Helina Rahman for development and completion of my thesis.

The help and support rendered by all the faculty members and research scholars of the department of Biotechnology, Guwahati University, Guwahati, Assam is highly acknowledged.

I am also thankful to the laboratory staff of down town hospital Pvt. Ltd., Guwahati, and Dr. Lal pathlabs pvt. Ltd., Guwahati for their help co-operation throughout my research work.

All my efforts would have remained incomplete without the blessings, constant demonstration of love, encouragement, support, optimistic approach
that gave me the peace of mind that really enabled me to focus on my research work are my grandparents Mr. N. D. Goswami, Mrs. K. Goswami, my mother-in-law Mrs. N. Goswami and my parents Dr. M. D. Goswami and Mrs. R. Goswami.

I am grateful to my husband Mr. Dulal Goswami for his encouragement, suggestions, feedbacks, insights, patience and also for formatting, editing and printing of manuscript.

My thanks goes to my child Koustuv for his understanding, loving attitude towards me and family members during the study. His unlimited sacrifice without which this personal achievement would have been more difficult and less awarding.

Finally, all may not have been mentioned here but certainly not forgotten.

Date: 20/5/10

(Madhurima Goswami)
