ACKNOWLEDGEMENTS

I express my deep sense of gratitude and indebtedness to my guide, Prof. Karabi Dutta, Head of the Department of Zoology and Dean of Science, Guwahati University, Guwahati for her inspiring and judicious guidance and constant encouragement throughout the course of my research. It is my great pleasure to work under her guidance. I would like to acknowledge her for providing me the necessary laboratory and library facilities and other related requirements which were required during my research work.

I wish to express my deep sense of gratitude to my co-guide, Dr. Kangjam Chaoba Singh, Scientist-D, Regional Tasar Research Station, Central Silk Board, Imphal, Manipur who guided me to conduct my research systematically with sustained interest. I owe him my thanks for his inspiring guidance, thought provoking suggestions and intangible efforts for providing me with the atmosphere and facilities that I needed for completing this work successfully. I am very much thankful to him for providing me seeds of oak tasar silkworm; allowing me to conduct rearing in their rearing farm and for providing me laboratory and library facilities.

I sincerely owe my deep sense of gratitude to distinguished faculties of Department of Zoology, Guwahati University Prof. Jatin Kalita, Prof. Amalesh Dutta, Prof. D.K. Sharma, Prof. M.M. Goswami, Prof. U.C. Goswami, Dr. P.K. Saikia, Dr. J.C. Kalita and Prof. R.K. Bhola for their warm cooperation and encouragements throughout the course of research.

I am also thankful to the non-teaching staffs especially Mr. Jayanta Sharma, Mr. Sakir Choudhury, Mr. Mridul, Mr. Jaganath, Mr. Mustak Ahmed, Mr. Prabin, Mr. Khagen Medhi, Mr. Karim, Mr. Tarani, Mr. Boro and all the others for assisting me during my research activities in the Department.

This thesis would not have been possible without the help and support from the staffs and Scientists of Regional Tasar Research Station (RTRS) Central Silk Board, Imphal. The rearing of silkworms would not have been possible without the help of field assistants of Breeding and Genetics Section of this station. I am so grateful especially to
Dr. Ningombam Mohendro Singh, Scientist-C and Dr. Laishram Somen Singh, Scientist-C for their kind cooperation and valuable suggestions. I am also thankful to Dr. Reeta Luikham, Dr. N. Bidyapati, Dr. James Keishing, Rajen and all the staffs of this research station.

I kindly acknowledge Dr. K.M. Ponnuvel, Scientists-D, Seribiotech Research Institute, Central Silk Board, Bangalore, for his concern, support and for allowing me to use their laboratory and for facilitating the use of expensive chemicals for carrying out the experiments of molecular analysis. I am also thankful to Dr. Geetha Murthy and S. Sashibhusan for helping me while carrying out the experiments.

It is a matter of great pleasure and privilege to express my sincere regards to Dr. N. Ibotombi Singh, Scientist-C, Central Muga and Eri Research and Training Institute, Central Silk Board, Lahduigarh, Assam for the valuable guidance and suggestions for carrying out the experiments of cytogenetics.

I would like to extend my heartfelt respect to Prof. Sarbani Giri, Department of Life Sciences, Assam University, Silchar for her inspirations and for introducing me in the field of research.

It is my pleasure to extend my special thanks to my seniors Dr. Manuj Bharali, Dr. Oinam Hemchandra, Dr. Azizur Rehman for their help and support. I am very thankful to my lab fellows and friends Chandralekha Deka, Dulur Brahma, Sandip Choudhury, Mazedul Islam, Mayur Bawri, Priyasa Saikja, Konthoujam Shyam Kumar, Tarali Kalita, Samuel Kamson, Yungkham Rajeev Kumar, Prarthana Mudoi for their help and companionship.

My special thanks go to Sougrakpam Neeti for her help during my research period and proof reading of my thesis. I am very thankful to my friend Harinita Tojam, Research scholar, Department of Botany, Gauhati University and my roommate Bedika Bhattacharjee, Department of English, Gauhati University for their help and support during my course of research.
This research was made possible through the financial support of the University Grants Commission (UGC) Basic Scientific Research (BSR) Fellowship. I would like to appreciate and thank UGC for their fellowship.

Words cannot describe how thankful I am to God and my beloved mother and father who has enabled me to be where I am now and where I am happy. Thanks for your inspiration, love and care. I am also thankful to my sister Kanghujam Ibasharni Devi and my brothers, Kanghujam Ibasar Singh and Kanghujam Ibsor Meetei for their help, moral support and encouragements without which I could not complete my course.

I also offer my heartfelt thanks to relatives and well wishers who have been a flame of inspiration, moral support, and rendered throughout the course of investigation.

K. Ibsonani Devi
