ACKNOWLEDGEMENT

First of all I would like to express my deep gratitude to my supervisor Dr. Binod Chandra Tripathy for his support, constant guidance and encouragement during my studies and investigations for completing the thesis work.

Many thanks to all my teachers of Bajali College and all members of the Department of Mathematics, Gauhati University for their constant encouragement and advice for completing the work.

I thank the successive Vice Chancellors, the Registrars, the Controllers of Examinations and all the other supporting staff of Gauhati University for their kind help.

I thank the successive Directors, the Registrars of IASST for giving me permission to carry out research. I also thank all the members of the Mathematical Sciences Division of IASST.

I avail this opportunity to thank the successive Principals, colleagues, friends and students of Birjhora Mahavidyalaya, Bongaigaon; D.R. College, Golaghat and A.D.P. College, Nagaon for their encouragement and love during my service as lecturer since more than six years and finally same acknowledgement deserve joint Registrar, colleagues, friends and students of my present employing Gauhati University, Kokrajhar Campus.

Special thanks go to my parents Sri Keshab Dutta and Late Pranita Dutta for their support and encouragement. I thank my sisters Miss Anamika Dutta and Miss Mridusmita Dutta and all other family members for their help and encouragement.

HEMEN DUTTA
