I take this opportunity to offer my gratitude towards the honest help I was bestowed upon by many people whose contribution of their valuable time, wisdom, and expertise led me complete my PhD work with ease. Without their support, this research would have been impossible.

First of all, I would like to especially acknowledge my supervisor and guide Professor Jatin Kalita Sir for introducing me to the world of insects in the wild and their service to nature through pollination. He has been actively participating from A-Z of my PhD work. His constant mentoring and confidence in me was the foundation for my professional development in the field of entomology and pollination biology. Words are limited to express my heartfelt gratitude for the limitless help and support rendered by him.

I would like to acknowledge the Head of Department of Zoology: Dr. K. Dutta for providing me the necessary laboratory and library facilities and other related requirements which were the prime requisite during my research work. To all my teachers, Dr. P.C. Bhattacharjee, Dr. Aparajita Borkotoki, Dr. Amalesh Dutta, Dr. D.K. Sharma, Dr. U.C. Goswami, Dr. M.M. Goswami, Dr. R.K. Bhola, Dr. P.K. Saikia and Dr. J.C. Kalita for their constant support, warm cooperation and never-ending encouragements. I am immensely grateful to all my teachers for their constant source of inspiration which influences me to tackle any difficult situations with ease.

I am thankful to the non-teaching staffs especially Mr. Jayanta Sharma, Mr. Sakhir Choudhury, Mr. Jaganath, Mr. Mustak Ahmed, Mr. Prabin, Mr. Khagen Medhi, Mr. Karim, Mr. Tarani, Mr. Boro, Mr. Bikram and all the others for assisting me during my research activities in the Department.

I am thankful to the Assam Forest Department, Government of Assam for granting me permission to undergo my research works in Rani Reserve Forest, Assam, India.
I am grateful to Defense Research Laboratory, Tezpur for appointing me as a researcher in the project entitled “Study on the occurrence and larval habitat characteristics of Malaria vectors in certain areas of Indo-Bhutan Borders, Assam” which had given the necessary exposure and partial financial assistance during my research period.

I am fortunate enough to attend the ‘SPSS training’ on from 7th – 11th Sept. 2009 at Arja Vidya Peeth College, Guwahati, Assam organized by North East Centre For Research And Development, IGNOU; ‘Research Methology Course for Ph. D. Scholars’ from 12th Oct -1st Nov. 2009 at U.G.C, Academic Staff College, Gauhati University; ‘16th Training course on collection, preservation and identification of insects and mites of economic importance’ from 23rd -26th, 2010 at Zoological Survey of India, Ministry of Forests, Govt. of India, Kolkata; ‘PhD Course Work, 2011’ at the Department of Zoology, Gauhati University which helped me enormously and gave me the required confidence in my research area.

I am indebted to my senior, Dr. Bhrigu Prasad Saikia for introducing me to my study area, Rani Reserve forest, Assam during the initial stage of my PhD work and helped me in establishing and mapping my study sites. My heartfelt gratitude for the benefits I have acquired from scientific and social interactions with my seniors Dr. Oinam Hemchandra, Dr. Tamanna Zamal, Dr. Bishwajit Sharma, Dr. Jyotismita Das and Mrs. Jinti Moni Khaklary which have helped me in the development of my research work.

I am grateful to my roommates with whom I have endured and enjoyed so much during my research period. Dr. Oinam Sunanda Devi, whose strong confidence and persona inspires me bountifully in addition to her constant suggestion and offers of expertise and care revitalized my zeal every time I talk to her. My high regards and acknowledgement to Pushpa Komor, her attitude and fun-loving nature whose presence enough was very refreshing. Times spent with Abokali Aye, Moutushi, Marlyn Daimari, Madhuri, Soma Dhar whose understanding and light moments fueled me for the more challenging days.
I am very thankful to my best friend and roommate, Dulur Brahma with whom I have shared life's greatest challenges and many happy as well as sad moments too. Her constant encouragements, moral support and company during my field trips and development of my research work and as well as helping me fix difficult problems on short notice is highly acknowledged and appreciated.

My research experience was enriched by sharing ideas with my colleagues and friends, especially Sandip Choudhury, Majedul Islam, Mayur Bawri, Dr. Naorem Linthoi, Ibsorani Kanghujam, Kongthoujam Shyam Kumar Singh, Yungkham Rajeev Singh, Priyasa Saikia, Kuldip Sharma, Parashar Saikia, Prarthana Mudoi, Anuradha Jaiswal, Kadish Kathar, Saikhom Amita, Tongbram Baby, Atom Premananda. Their openness and friendship especially made this research possible and made me a better person and gain more knowledge for which they are highly acknowledged.

I am grateful to a plethora of people who enthusiastically supported me during my challenging days especially Samuel Kamson, for his precious time and company rendered in many stages of my research works. My sincere thanks goes to my local field Guides Mrinal Kalita, Hemen Kalita and other people whose names cannot be recalled, but never forgotten without whom it would have been impossible to carry out my PhD work in difficult terrains. I am grateful to Anaru Boro, Sanjib, Dr. Ajoy Das for efficiently helping me identify my host plant specimens. Dr. Rustam Ali whose assistance in my statistical analysis is acknowledged here. I would also like to acknowledge the ZSI, Kolkata group, Dr. P. Girish Kumar (Hymenoptera Section), Dr. Parui (Diptera section), Dr. Hegde and Jhikmik Dasgupta (Coleoptera Section), and finally Dr. Srinivasan for helping me identify my insect specimen collections.

Suggestions from my Internal Examiners from our Department and External Examiners who helped improve my thesis and provided patient guidance in developing and presenting this work are sincerely acknowledged.

Family members and relatives also played major roles during my research works. My maternal Aunt Dr. O. Sunita Devi, O. Shantibala Devi and to all my Aunts, Uncles, Sister-in-laws and all others I have not mentioned whose help is sincerely acknowledged. I will ever remain grateful to my brother, S. Dinesh for his help in preparing maps of my
study area and his constant assistance and guidance. I shall always be in debt for the love and support I have attained from my brothers, S. Thomas, S. Puneshor, and my sister S. Trishna and her husband, Mr. Nongthanglemba L. I am fortunate enough to be Aunt of four nieces, Marcie, Calista, Guddi, little Yaiphabi and two nephews, Khwaihenba and Kiyamba whose innocent faces and their little activities helped me relax after my hard work and instill confidence in me to guide them in future.

Finally, I am grateful to my parents, Sougrakpam Nabachandra Singh and Oinam Chittamuhini Devi without whose love I surely would have never made it this far. I could not ever repay back their constant support, help and most importantly having faith in me and letting me have the freedom to undertake my wild ventures. They helped fuel my passion for science with listening ears. My body and mind stayed centered, thanks to their love and care.
