ACKNOWLEDGEMENT

The author expresses his deep sense of gratitude to Dr. Anup Kumar Talukdar, Professor, Department of Chemistry, Gauhati University, for rendering valuable guidance, constructive criticism, constant encouragement and untiring help throughout the course of research works and in the preparation of the dissertation.

I would like to convey my reverence to all my teachers in Chemistry Department, Gauhati University and also the fellow Lecturers of my College for their support and valuable suggestions.

The author gratefully acknowledges the Principal and the Governing Body of Bajali College, Pathsala, for allowing him to pursue higher studies and the author promises to serve them better in future.

Thanks are also due to the co-operation shown to me by all the official stuff members of our department, including the night watchman.

The author gratefully extends thanks to fellow Ph.D scholars Jitu, Kishor, Durlov, Naba, Subrata, Banani and Dhanju for standing by and helping out him during the periods of blues.

Special thanks are rendered to hostel mates Manoj, Naba, Hari, Bhupen, Arun and Biduyt for their brotherly helps.

The author acknowledges the effort of DTP operator and his co-workers for giving the final shape to the dissertation.

Finally, the author expresses profound sense of gratitude to his parents, wife and younger brother for their constant encouragement and all kinds of support during the course of the research works.
