ACKNOLEDDGEMENT

I am immensely grateful to Dr. Bichitra Kalita, Associate Professor and Head of the Department of Computer Application, Assam Engineering College, Guwahati, Assam for his constant and careful guidance throughout the course of investigation of the work embodied in this thesis. His ample and dynamic guidance towards the completion of this thesis is acknowledged with profound gratitude and respect. This work would not have been possible to complete without his courageous inspiration and special attention. I am also very much greatful to all members of the family of Dr. B. Kalita.

I am eternally indebted to my father in law Late Dr. Uday Das and mother in law Mrs Archana Das & sister in law Miss Madhusmita U. Das for their inspiration and constant encouragement during the course of whole work.

I am deeply indebted to my wife Mrs. Mridusmita Das Bora for her constant inspiration, encouragement, cooperation and painstaking helps offered to me during the entire Ph. D. course work. The eagerness of my daughter Mrigakshi Bora (Barbi) for my research work is something beyond description.

Guwahati, 1st September, 2014

( KANAK CHANDRA BORA )
