136. Krishnan M.S. (1968), Geology of India and Burma.

155. **Manalis, N., Grivas G., Protonotarios V.**, (2005), Toxic metal content of particulate matter (PM10), within the Greater Area of Athens, Chemosphere, 60, 557-566.

191. Natural Resource Management Ministerial Council 2005,

203. Ongley E.D.(1997), MATCHING WATER QUALITY PROGRAMS TO MANAGEMENT NEEDS IN DEVELOPING COUNTRIES: THE CHALLENGE OF PROGRAM MODERNIZATION,

207. Patowary (2000), A Study on some drinking water quality parameters of springs and wells of Greater Guwahati; M.Phill Diss, G.U.

    Statistical Analysis of Ground Water Data of an Iron Ore Mining Area. Indian

    New Delhi.

238. **Rao, J. K. and Shantaram, M V(1995).** Ground water pollution from open
    refuse dumps at Hyderabad. Indian Journal of Environmental Health, 37(3) : 197-
    204.

    city using air quality indexing method. Journal of Ecotoxicology and

240. **Ross, S.M., (1994),** Retention, transformation and mobility of toxic trace metals in
    Soil plant systems; Ross, S.M. (ed.); John Wiley and Sons: Chichester, U.K., 63–
    152.

241. **Rainey, M.P., Tyler, A.N., Gilvear, D.J., Bryant, R; G; McDonald, P, (2003),**
    Mapping intertidal estuarine sediment grain size distributions through airborne

242. **Rubenowitz, E; Axelsson, G; Rylander, R., (1999),** Magnesium and calcium in
    drinking water and death from acute myocardial infarction in women,

243. **Rupankar Chowdhury (2007),** Study of suspended particulate matters (SPM) in
    some parts of Guwahati City.

244. **Saar, R.A. and Weber, J.H., (1982),** Fulvic acid: Modifier of metal-ion
    chemistry, Environmental Science and Technology, 16: 510–517.

248. **Samara, C., Voutsa, D.,** (2005), Size distributions of airborne particulate matter and associated heavy metals in the roadside environment, Chemosphere, 59, 1197-1206.

250. **Saravanakumar, K. and Kumar, R. Ranjith,** (2011), Analysis of water quality parameters of groundwater near Ambattur industrial area, Tamil Nadu, India, Indian Journal of Science and Technology, Vol. 4 No. 5.

260. Sharma, N. and Sharma, H.P., (2006), Fluorides and nitrate content in ground water samples in different locations of Kamrup (Both Metro and Rural) district, Asom, India, Enviro-spectra, Vol 1, No.1 2006, P.73-81.

265. Siddiqui, Wequar Ahmad and Sharma, Rajib Ranjan, (2009), Assessment of the impact of industrial effluents on groundwater quality in Okhla industrial area, New Delhi, India,E-Journal of Chemistry, 6(S1), S41- S46.
