Zhao, X. and Hardin, J. R. (2007)
HPLC and spectrophotometric analysis of biodegradation of azo dyes by Pleurotus ostreatus.
Dyes and Pigments, 73, 322 – 325.

Decolorization of industrial effluents containing relative dyes by actinomycetes.

Anoxic treatment of low strength wastewaters by immobilized sludge.
Properties of purified orange II azoreductase, the enzyme initiating azo dyes degradation by Pseudomonas KF46.

Comparison of two bacterial azoreductases acquired during adaptation to growth on azo dyes.
