ACKNOWLEDGMENT

I acknowledge with a deep sense of gratitude to my revered teacher Dr. R.S. Sethi, MD, DCH, Assistant Professor, Department of Paediatrics, M.L.B. Medical College Jhansi for untiring help, able guidance, valuable suggestions and for careful supervision provided by him during the entire period of study. Without his inspiration and encouragement it may not have been possible to undertake this task.

I feel a sense of deep obligation towards my Co-guide Dr. Sunita Arora, M.S., Associate Professor, Department of Obstetrics and Gynaecology, M.L.B. Medical College, Jhansi, for excellent guidance and unlimited help at every juncture, her meticulous suggestions have gone a long way in the accomplishment of this venture.

To my esteemed and learned teacher Prof. Ramesh Kumar, MD, DCH, Head, Department of Paediatrics, M.L.B. Medical College, Jhansi, for whom my reverence has always been its zenith. He has put forward his profound knowledge and practical experience regarding the intricacies in the work.

Dr. (Smt.) Sheela Longia, MD, Associate Professor, Department of Paediatrics, M.L.B. Medical College, Jhansi, has been a picture of affection and encouragement and has always been a rise counsel ever--ready to patch the chinks in armous with her suggestions and critical comments.
I shall always remain grateful to her.

I express my sincere gratitude to Dr. Anil Kaushik, MD, Assistant Professor, Department of Paediatrics. His friendly behaviour, eagerness to help and his wide expertise will always be remembered.

My thanks are also due to my friends and well wishers, naming whom will not be possible, who unsolicit- tingly gave such help as was sought from them. It would be callous on my part not to mention Mr. Phool Chandra Sachan, for devoting his valuable time in typing this thesis. Finally, I can only humbly beg forgiveness from those whom I haven't mentioned.
