

ACKNOWLEDGEMENTS

I would like to sincerely thank all the people around me who helped me in completing this research work. It would not have been possible without their kind support and encouragement.

First and foremost, I would like to express my heartfelt gratitude to my research guide, Dr. Puttamadappa C, Principal, Sapthagiri College of Engineering, Bangalore, for his earnest guidance and support throughout the course of this research. I really thank him heartedly for the assistance, comments, constructive criticism and positive attitude helped me proceed towards completing each step of the thesis.

I would like to convey my special gratitude to my research co-guide Dr. H.S. Mruthyunjaya, Professor, Department of E and C Engineering, MIT, Manipal, for his constant encouragement and stimulating suggestions helped me in all the time of research for and writing of this thesis.

I would like to extend special regards to our HOD, Dr. K. Prabhakar Nayak and Dr. Kumara shama for their valuable advices during my research work. A special thanks to Dr. T.G.S Chandrashekarappa for his continuous motivation and inspiration towards the completion of this research work.

I would like to thank my friend Dr. Hemanth Kumar A.R for all the thoughtful and mind stimulating discussions we had over the dinner time have been very useful, which prompted us to think beyond the obvious.

I would like to convey my special gratitude to Manipal Institute of Technology and Manipal University for providing me an oppurtunity with an excellent atmosphere for doing research.

Finally, I would like to thank my parents, brothers, sisters, wife and children for their unending love, untiring support and seemingly unlimited belief in me without which all this would not have been possible.
