ACKNOWLEDGEMENT

It gives me great pleasure to express my deep sense of gratitude to Dr. K.C. Kalra, M.Sc. (Hons.), Ph.D. Professor, Department of Chemistry, Maharshi Dayanand University, Rohtak, for his indispensable guidance, perpetual inspiration and keen interest for successful completion of this work. His affectionate attitude has given me a sense of confidence and security.

I have benefitted highly from worthy advice and constant help I had with Dr. K.C. Singh, Reader in the Department of Chemistry, Maharshi Dayanand University, Rohtak.

I am thankful to Professor R.S. Chaudhary, Head, Department of Chemistry, M.D. University, Rohtak for providing laboratory facilities.

It is pleasure to thank my research colleagues and friends Dr. Sanjeev Maken, Dr. D.C. Spah, Umesh Bhardwaj, Dilbag, Subhash and Dinesh for the cooperation and help they have extended to me during the course of these investigations.

I am indebted to Miss Sunita for her deep and sincere encouragement.

The financial assistance from the University Grants Commission, New Delhi is gratefully acknowledged.
