ACKNOWLEDGEMENTS

It is my proud privilege to acknowledge with a sense of respectful gratitude, the personal interest, invaluable guidance, constructive criticism and persistent inspiration rendered to me by my esteemed guide Dr. M.K. Bhatnagar, Head, Department of English, M.D. University, Rohtak, throughout this study. But for his affectionate encouragement and learned advice, it would not have been possible to complete this work in a pleasant way.

I am also thankful to the library staff, M.D. University, Rohtak, for their invaluable support.

I am deeply indebted to my family members for their perennial inspiration and constant encouragement. The ultimate credit for the study goes to my parents for their moral support. My children - Mansi and Manu - also deserve special appreciation for their co-operation. I am also deeply grateful to my brother, Sandeep, for his constant help.

I will fail in my duty if I don't gratefully acknowledge the financial help in the form of Teacher Fellowship by the University Grants Commission, New Delhi.

Finally, I sincerely thank Computer Concepts, Rohtak for doing a commendable job in printing this thesis.
