ACKNOWLEDGEMENTS

I am deeply grateful to Dr. O.P. Agrawal, M.Sc., D. Phil, F.E.C.S.I., Professor in the Department of Chemistry, Maharshi Dayanand University, Rohtak for his profound ideas that form the basis of this thesis. I am highly obliged to him for his invaluable guidance, kind interest and constant encouragement which have gone a long way towards achieving this goal.

I also take this opportunity to place on record my deep sense of gratitude to Dr. R.K. Nigam, M.Sc., Ph.D., F.R.I.C. (London), Prof. & Head of the Chemistry Department, Maharshi Dayanand University, Rohtak for his very cooperative attitude throughout the period of work and for providing the necessary laboratory facilities.

I gratefully acknowledge the useful help rendered by Dr. P.P. Singh, Dr. Jag Mohan and Dr. K.K. Verma in the form of critical suggestions and consultation from time to time.

Thanks are also due to all my friends and colleagues, especially Dr. S.P. Sharma, Shri V.S. Yadav, Shri S.K. Maken and Shri R.K. Yadav for their help and cooperation.

Last, but not the least, I am thankful to Maharshi Dayanand University, Rohtak for financial assistance.

(S.P. KHATKAR)
