ACKNOWLEDGEMENT

I take this opportunity to express my profound sense of gratitude to my Supervisor Dr. K.C. Singh, Lecturer, Department of Chemistry, Maharshi Dayanand University, Rohtak, for his indispensable guidance, perpetual inspiration and keen interest for successful completion of this work.

I am honoured to express deep sense of gratitude to Late Professor R.K. Nigam, Ph.D., F.R.I.C.(London), F.N.A.Sc (India), Department of Chemistry, Maharshi Dayanand University, Rohtak, my Supervisor for the encouragement infused into me to initiate this work.
I am grateful to Professor, P.P. Singh for taking over the Research Project after untimely sad demise of Professor R.K. Nigam, so that I never faced financial problems during the course of research period. I have benefitted highly from the discussions I had with Dr. K.C. Kalra, Reader in our Department.

Thanks are also due to Professor O.P. Aggarwal, Head of Chemistry Department, M.D. University Rohtak for providing laboratory facilities.

I am indebted to Miss Charu Gautam for her deep and sincere encouragement throughout the research tenure and for the painstaking corrections of the manuscript.

It is pleasure to thank my research colleagues and friends especially Dr. Sanjeev Maken, Dr. G.S.R. Anjaneyulu and Mr. Dal Chand Spah for the cooperation and help they have extended to me during the course of these investigations.

I thank Mr. Rajendra Sharma for tracings and M/s Arora Typewriters for neat and patient typing of the manuscript.

The financial assistance from the University Grants Commission, New Delhi and M.D. University, Rohtak is gratefully acknowledged.

(PRAKASH KUMAR)
