ACKNOWLEDGEMENTS

It gives me a great pleasure to record my deep sense of gratitude to my supervisor Dr. R.K. Nigam, M.Sc., Ph.D., F.R.I.C. (London), Professor & Head of the Chemistry Department, Maharshi Dayanand University, Rohtak, for his keen interest, perpetual encouragement, indispensable guidance and kind help throughout these investigations. I am also thankful to him for procuring superpurity aluminium from Professor T.P. Hoar, Cambridge University, England and for obtaining X-ray patterns of aluminium oxide films with the help of Dr. J.R. Sambles of Physics Department, Exeter University, during his visit to the U.K.

I am grateful to Professor S.M. Mukherji, the then Head of the Chemistry Department, Kurukshetra University, for providing laboratory facilities in the Department, where part of the research work was carried by me. I am thankful to Mr. P.K. Suri for extending help in preparing computer programmes for calculations.

The cooperation and help I got from my colleagues in Professor Nigam's laboratory is deeply acknowledged.

Last, but not the least, I am grateful to the U.G.C., New Delhi and Maharshi Dayanand University for providing financial assistance.

( RAKESH KAPOOR )
