ACKNOWLEDGEMENT

By the grace of Almighty and wishes of elders, I could find the occasion on which I may express my thankful & sincere feelings for those who helped and motivated me in carrying out the research work. The entire work reported in the thesis has been done under the joint supervision of Prof. C.L. Mittal, Head, Deprt. of Electronics, TIT&S Bhiwani and Dr. Sudhir Batra, Sr. Lecturer, Deptt. of Mathematics, TIT&S Bhiwani. My deep sense of gratitude and most sincere appreciation for them cannot be measured in words. I feel proud of their eminence and vast knowledge, which will guide me throughout my life. I should sincerely convey my thanks to their families in extending generosity and hospitality to me as and when I visited their home.

I am indebted to Mr. S.S. Sheoran G.M., Parle Biscuits Ltd. Bhadurgarh, for allowing me to collect the data for PLCs from the plant. Mr. Koshi & Mr. Ravinder Singh (Engineers at Parle Plant) has been always available to help me in every respect at the plant and cleared my every query regarding working & applications of PLCs. Their valuable guidance and unfailing encouragement rendered to me, from time to time has helped me to complete my reseach work.

I am extremely grateful to Dr. R.K. Tuteja, Professor, Department of Statistics, M.D.U. Rohtak and Dr. Gulshan Taneja, Reader, Deprt. of Statistics, University College, Rohtak, who have been a source of inspiration and constant encouragement throughout the progress of this work.

I also put on record the encouragement and co-operation extended by my friends, colleagues and students.

Last but not the least, my heart goes all out to acknowledge my indebtedness and love to my parents, my family for their unbounded affection and support given throughout this work. I express my loving gratitude to my daughter Anjali, Guddu, Akhil, Mansi, Pratham for their patience through this work.
