ACKNOWLEDGEMENT

First and foremost, I will like to express my profuse thanks to my respected parents; more particularly to my father Brigadier O.P. Chaudhry VSM, the former Vice-Chancellor of Maharshi Dayanand University, Rohtak who persuasively nudged me from time to time to undertake research work; while as a back-up to it, had been the occasional proddings from my mother too.

Equally thankful, I am to my wife Saroj who as the Lady of the house took full command of managing and running the household thereby relieving me of related domestic duties which left me with all the time to single-mindedly pursue the project in hand. She even accompanied me to Chandigarh and Delhi where I had to often go to consult libraries for collecting the required material.

I am in a different albeit significant way thankful to my dear son Bobby, a strapping lad in his mid-teens. Prompted by his boyish inquisitiveness, he would often ask me about the progress and completion of my work. I must admit that each inquiry spurred me to get on with the ongoing task with greater intensity and a sense of renewed enthusiasm and heightened urgency.

I am hugely indebted to Dr. S.P.S Dahiya, Head of English Department of M.D. University, Rohtak, my guide and mentor. Despite his indifferent health, he could always find time for long sessions with me which were mostly held at his residence. It is during the interaction of these sessions that his masterly guidance steered the course of my research and the early nebulous ideas began evolving and finally developed into the present shape of my thesis. My debt to him is life long.

I am enormously grateful to all the teaching and non-teaching staff members of the department of English, M.D. University, Rohtak for their encouragement and support.

Finally, I thank Mr. Sanjay Rathee, Rathee Computer, University Shopping Complex, Rohtak for extending timely help during typing of this thesis.

(Inderjit Singh Chaudhry)
