List of Tables

Table 2.1: Tumor characteristics after Level set segmentation. 20
Table 2.2: Tumor characteristics after marker controlled Watershed segmentation. 20
Table 2.3: Comparison of tumor area with an expert radiologist. 21
Table 4.1: Features of GLCM. 34
Table 4.2: Classification with Harlick's Features. 41
Table 4.3: Classification with Haralick's features with new entropy. 42
Table 4.4: Classification with energy, inertia and new entropy features with rough set feature selection. 42
Table 4.5: Classification with Laws' feature extraction with rough set feature selection. 42
Table 4.6: Classification using neural networks with back propagation learning. 42
Table 4.7: Classification of masses with rough set feature selection and SVM. 43
Table 4.8: Classification using neural networks with back propagation learning. 43
Table 4.9: Classification of masses with rough set feature selection and SVM based classifier. 44
Table 4.10: Classification using Neural Networks with back propagation learning. 44
Table 6.1: Tumor characteristics after modified region growing segmentation. 61
Table 6.2: Tumor characteristics after Level set segmentation. 61
Table 6.3: Tumor characteristics after marker controlled Watershed segmentation. 62
Table 6.4: Comparison of tumor area with an expert radiologist. 62
Table 6.5: various parameter settings. 67
Table 6.6: Results of data set 1. 68
Table 6.7: Results of data set 2. 68
Table 6.8: Results of data set 2. 68
Table 6.9: Total results of data set 1 and 2. 68
Table 6.10: Comparison of automatic segmentation with manual segmentation. 75
