### CHAPTER 1. INTRODUCTION 1-28

1.1 Introduction 1
1.2 Scope and Objectives of the study 3
1.3 The study area
   a. Physiography and climate 5
   b. Continental shelf morphology 6
   c. Waves, Tides and Currents 7
1.4 Geology of the area 7
1.5 Review of previous works
   a. Regional geomorphic studies 14
   b. Coastal geomorphology and sea-level studies 16
   c. Continental shelf morphology 24
1.6 Methodology 26

### CHAPTER 2. Coastal Geomorphology 29-71

2.1 Introduction 29
2.2 Coastal geomorphology 31
a. Distribution of coastal landforms
   a1. Sector I Between Chidambaram and Pondicherry
   a2. Sector II Between Pondicherry and Sadurangapatnam
   a3. Sector III Between Sadurangapatnam and Madras
   a4. Sector IV Between Madras and Pulicat

b. Description of coastal landforms
   b1. Beaches
   b2. Beach ridges and Swales
   b3. Cheniers
   b4. Paleo-barriers and paleo-tidal flats
   b5. Mudflats
   b6. Cliffs and terraces
   b7. Deltas
   b8. Abandoned river channels
   b9. Gravel high land
   b10. Coastal sand dunes and ‘Teri’ sand dunes
   b11. Mangrove swamps and salt marshes
   b12. Cuddalore sandstone uplands
   b13. Lagoons and tidal creeks
   b14. Pediment high and inselbergs

2.3 Application of remote sensing on coastal geomorphic studies
   a. Introduction
   b. Methods
   c. Band ratioing
   d. Principal Component Analysis (PCA)
   e. Supervised classification
# CHAPTER 3. Grain size analysis

3.1 Introduction 72

3.2 Methodology 73

3.3 Grain size parameters of the sediments 76
   a. Mean 76
   b. Frequency curve 79
   c. Standard deviation 81
   d. Skewness 83
   e. Kurtosis 85

3.4 Bivariant plots 86

3.5 CM pattern 89

3.6 Visher's diagram 90

3.7 Discussion 91

# CHAPTER 4. Coastal Evolution

4.1 Introduction 95

4.2 Quaternary sea-level 96
   a. Introduction 96
   b. Historical background 98
   c. Sea-level indicators 100
      c1. Around Porto Novo 105
      c2. Around Pondicherry and Marakkanam 109
      c3. Around Mamallapuram and Kovalam 112
      c4. Around Tiruvanmiyur 114
      c5. Between Madras and Pulicat 115
d. Discussion
   d1. Porto Novo
   d2. Pondicherry
   d3. Marakkanam
   d4. Mamallapuram
   d5. Between Madras and Pulicat

4.3 Impact of sea-level
   a. Between Chidambaram and Pondicherry
   b. Between Pondicherry and Sadurangapatnam
   c. Between Sadurangapatnam and Madras
   d. Between Madras and Pulicat

4.4 Fluvial processes
   a. Coleroon river
   b. Vellar river
   c. Gadilam and Ponnaiyar rivers
   d. Gingeear river
   e. Palar river
   f. Korataliyar and Araniar rivers

4.5 Tectonism
   a. General
   b. Historical background
   c. Present study

4.6 Wave refraction study
   a. General
   b. Historical background
   c. Method
   d. Results
4.7 Coastal classification 142
4.8 Evolutionary history 149
   a. Geological history 149
   b. Quaternary coastal evolution 153

CHAPTER 5. Summary and Conclusion 160-167
