ACKNOWLEDGEMENT

"There is not a more pleasing exercise of the mind than gratitude. It is accompanied with such an inward satisfaction that the duty is sufficiently rewarded by the performance"
- Joseph Addison

At the very outset, I would thank Providence for all the blessings He has showered on me. It’s with His blessings that I have embarked on this venture viz. striving for the doctorate.

Gratitude is a feeling of the heart. I express my deep sense of gratitude to my research advisor Dr. S. KUMARARAMAN, Reader & Head, P.G. and Research Department of Physics, Nehru Memorial College (Autonomous), Puthanampatti, Tiruchirappalli, for all the guidance he has given me in my doctoral research. As nothing is permanent except “CHANGE” in this changing world, he has made a permanent change in me with his enormous, undisputed talent and skills in the field of CRYSTAL GROWTH. I am deeply indebted to him for his valuable guidance, valuable advices and for the numerous discussions during the entire course of this research work.

My heartful thanks are due to Prof. M. PONNAMBALAM, Secretary, Nehru Memorial College, Puthanampatti, Tiruchirappalli, and to Dr. K. VARADHARAAJEN, Chairman, Roever Educational and Social Welfare Institutions, Perambalur for their invaluable guidance and for the words of encouragement they spoke to me during the entire research work.
I am grateful to Dr. S. RAJAGOPALAN, Principal, Nehru Memorial College, Puthanampatti, Tiruchirappalli, and Dr. N. DURAIRAJ, Director and Principal, Thanthai Hans Roever College, Perambalur for their immense cooperation and valuable support I received throughout this research.

I place on record my deep gratitude to Prof. A. SEBASTIYAN, Reader in Chemistry, Urumu Dhanalakshmi College, Trichy, Doctoral Committee Member, Prof. P. RAMASAMY, Dean, SSN Engineering College, Chennai, Dr. J. KUMAR, Director, Crystal growth centre, Anna University, Dr. R. JAYAVEL, Director, Nano Science and Technology, Anna University, Prof. M. PALANICHAMY, Department of Chemistry, Anna University, Dr. N. VIJAYAN, Scientist, National Physical Laboratory, New Delhi and to Dr. P. RAMESH BABU, Lecturer, School of Physics, Bharathidasan University, Tiruchirappalli for their unstinted cooperation and for all the encouragement they gave me and for all their valuable suggestions but for which I couldn’t possibly have completed this research project.

I express my sincere thanks to Mr. R. SANKAR and Mr. C. M. RAGHAVAN Research Scholars, Crystal Growth Centre, Anna University and to Mr. SRINIVASAN, Research Scholar, NIT, Tiruchirappalli, for their moral support and for all the useful discussions I have had with them.

I thank Dr. P.K. DAS, Professor, Department of inorganic and physical chemistry, Indian Institute of Science, Bangalore for his valuable suggestions.

I thank the Sophisticated Analytical Instrumentation Facility (SAIF), IIT, Chennai, Central Electro-Chemical Research Institute (CECRI), Karaikudi, Nuclear Physics Department, Madras University, Chennai, Archbishop Casimir
Instrumentation Centre (ACIC), St. Joseph’s College, Tiruchirappalli for making available to me the enormous infrastructure they have, their kind cooperation and for the valuable help they rendered to me. These have helped me a great deal in this investigative venture.

I extend my warm and sincere gratitude to all the staff members of the Department of Physics, Thanthai Hans Roever College, Perambalur and Nehru Memorial College, Puthanampatti.

I gratefully acknowledge that the Institute of British English headed by Mr. GOPALTHATHAN helped me a good deal to edit and refine the thesis and to make it presentable.

"The moments may be temporary but the remembrance is forever."

I am very grateful to my grandfather Mr. A. ARUMAIRAJ, and my father Prof. A. JOSEPH, (Rtd.) Department of Physics, Jamal Mohamed College, Tiruchirappalli. I am especially beholden to them for their thought-provoking comments, valuable criticisms and for their unstinted support. Indeed, I do not think, I can thank them adequately. I have only been able to do this exercise with their prodigious expertise and help.

I owe my success to the immense sacrifice that my wife Mrs. W. RITHA PRAKASH, Lecturer, Department of Mathematics, Holy Cross College, Tiruchirappalli, has made by shouldering the onerous responsibilities of the family. This helped me not a little to concentrate wholeheartedly on this momentous intellectual exercise. The love and enthusiasm shown by her are very great indeed and I can't adequately thank her for these.
I will be failing in my duty if I do not thank my dear kids T. ALLEN JOSSE SAMSON and T. CHRISTY DIANAH for they too have sacrificed very great deal for me. I am full of gratitude for them.

My heartfelt thanks are also due to Mr. J. NATARAJ MOORTI and to Mrs. N. BHUVANESWARI of RICHNETS PARK, Tiruchirappalli, for their tireless work, which has made this endeavour possible.

J. Thomas Joseph Prakash
