ACKNOWLEDGEMENT

The author takes this opportunity to express his deep sense of gratitude and indebtedness to Dr. T.C. Sivakumar, Sr. Lecturer, Department of Chemistry, Regional Engineering College, Tiruchirapalli, under whose guidance and constant encouragement these investigations have been carried out.

The author wishes to record his grateful thanks to Dr. D. Venkappayya, Professor and Head, Department of Chemistry, Regional Engineering College, Tiruchirapalli for sparing his precious time for discussions and for the useful suggestions. But for his help this thesis would not have reached its presentable dimension.

The author wishes to record his grateful thanks to the Management of M/S. Bharat Heavy Electricals Limited, Tiruchirapalli for permitting to carry out this project and rendering the laboratory facilities.

The author is grateful to Mr. A.V. Narayanan, General Manager/ERD, BHEL, Tiruchirapalli for giving permission to carry out this project.

The author expresses his sincere thanks to Mr. Scott M Smouse, Pittsburgh Energy and Technology Center, USA and Mr. R. P. Krishnan, ORNL, Tennesse, USA for their useful review and comments during the investigations.
The author records his gratitude to Mr. Gordon R. Couch, Chief Engineer, IEA Coal Research, London, UK for his valuable comments during this project and for sending literature informations.

The author offers his deeply felt thanks to Mr. K. M. V. Malarkkan, General Manager/ R&D, BHEL, Tiruchirapalli for his wholehearted support and encouragement during the investigations.

The author takes this opportunity to express his gratitude to Mr. S. Gourishankar, Dy. General Manager/R&D, and Mr. V. Gopalakrishnan, Dy. General Manager/Project Management and Mr. K. Nandakumar, Sr. Manager/R&D BHEL Tiruchirapalli for their reviews and cooperation during the project.

The author recalls with thanks the help rendered by Mrs. Indira Subbaram, Manager/Informations, Corporate R&D, BHEL, Hyderabad and Mr. R. Sukumar, Library officer, BHEL Trichy in collecting literature informations.

The author is very thankful to Mr. P. Pandiarajan and Mr. Rajamani for providing help in designing figures using computer.

The author expresses his sincere thanks to Mr. P. V. Chandrasekaran and all the colleagues in the R&D
laboratory, BHEL, Tiruchirapalli for their kind cooperation during the course of the work.

Services rendered by Mr. P. Chinnasamy, Mr. P. Stephen Raj and Mr. A. Samydurai during the operation of the autoclave are gratefully acknowledged.

Finally but not perfunctorily, the author thanks his colleague Mr. A. Lawrence and Dr. Venkatesh Prabu, Lecturer, Regional Engineering College, Trichy who helped in many ways and gave moral support during the investigations and preparation of the thesis.

(R. Pattabhiraman)
