ACKNOWLEDGEMENT

I submit my kind and humble gratitude and salutation to my eminent professor Dr. SM. Ramasamy, Professor and Head, School of Earth Sciences, and Director, Centre for Remote Sensing, Bharathidasan University who has guided me a lot, concentrated in my each and every development and motivated me in many different ways to accomplish my thesis very successfully and here I would like to record that this thesis would not have been completed without his help.

I acknowledge the Council of Scientific and Industrial Research (CSIR), New Delhi for awarding me the Senior Research Fellowship for carrying out this research work. I also acknowledge my guide Prof. SM. Ramasamy for having permitted me to use the available data from his project 'RECHARGE' sponsored by Tamil Nadu State Council for Science and Technology.

I thank the Chief Engineer (Groundwater), PWD, Shri S. Thangavelu, Assistant Director (Groundwater), Director (Statistics), Madras, Assistant Director (Statistics), Tiruchirapalli and Assistant Soil Chemist, Soil testing lab, Tiruchirapalli for providing the available data from their respective organisations.
I wish to thank Dr. T. Natarajan, Director, Institute of Remote Sensing, Anna University, Madras for extending me their facilities for aerial photograph interpretation and Digital Image Processing. I would also like to thank Dr. S. Thillai Govindarajan and S/Shri M. Marudhachalam, T. Francklin, A. Sundaram and R. Ravindran Scientists, Institute of Remote Sensing, Anna University, Madras for their help with smiling face during the various stages of my work.

I express my sincere thanks to Shri. M. Ramalingam for providing the computer programme for working out surface water run-off. I also thank Shri V. R. Balasubramanian and Shri. Hemadhri, Computer Operators, who have helped me during digital image processing work at IRS, Anna University, Madras.

I thank Shri S. Adiga, Director, RRSSC, Bangalore for providing me training on digital image processing. I am also thankful to S/Shri K. Kesawasamy, Manavalan, and Elango for their help at RRSSC.

My sincere thanks are to Dr. S. Aruchamy, Lecturer, School of Earth Sciences for his immense help and valuable suggestions in the cartographic work. And also I wish to thank all the faculty members of the School of Earth Sciences for their help time and again.
Above all, I am bound to express my salutation to my mother Mrs. G. Saraswathi and My father Shri. A.P. Siddan who have brought up me with great sufferings and have provided a very strong foundation for my study. My younger brother Shri. S. Kannabiran, who took the responsibility of looking after the family is fondly remembered at this juncture.

There is always a lady behind each man’s victory. Like wise my lovable wife Mrs. Ezhil, has remained the back- bone for my research work. She has sacrificed herself in multiple fronts, shouldered my financial burden, looked after the family affairs and in general, tolerated all my negligence. So, I wish to record my gratitude to my wife without whose multivariate sacrifice I would not have completed my work.

I acknowledge the services of Shri. T. Shanmuganathan in computer work and Miss.Rathi Padma Kumari for her cartographic work. I thankful to Mr. E. Saranathan, IRS for his time to time help.

Finally, I thank all the research scholars and the non teaching staff of the School of Earth Sciences for their constant help through out my research work.
