LIST OF FIGURES

CHAPTER – I

Fig. 1.1 Study area 22
Fig. 1.2 Lithology map of the study area 22
Fig. 1.3 Fold belts of South India 23
Fig. 1.4 Geomorphology of the study area 24
Fig. 1.5 Methodology 26

CHAPTER – II

Fig. 2.1 Methodology 31
Fig. 2.2 IRS-1B FCC imagery showing lineaments of Sector - I 31
Fig. 2.3 IRS-1B FCC imagery showing lineaments of Sector - II 31
Fig. 2.4 Lineaments of Sector – I 31
Fig. 2.5 Lineaments of Sector – II 31
Fig. 2.6 Fracture swarms 33
Fig. 2.7 Curvilinear lineaments 34
Fig. 2.8 Curvilinear lineaments 34
Fig. 2.9 Branch off lineaments 35
Fig. 2.10 Radial lineaments 36
Fig. 2.11 Lineament density maxima 37
Fig. 2.12 Lineament number maxima 37
Fig. 2.13 Lineament anomalies and Neo–Active tectonics 38

CHAPTER – III

Fig. 3.1 Methodology 42
Fig. 3.2 Drainage fabric of Sector – I 43
Fig. 3.3 Drainage fabric of Sector – II 43
Fig. 3.4 Radial drainages and related lineaments 44
Fig. 3.5 Locales of radial drainages 44
Fig. 3.6 Palaeochannels 46
Fig. 3.7 Palaeochannels – Direction of migration 48
Fig. 3.8  Parallel drainages and related lineaments 48
Fig. 3.9  Lineaments deduced from parallel drainages 50
Fig. 3.10 Deflected drainages and related lineaments 51
Fig. 3.11 Deflected drainages and related lineaments 51
Fig. 3.12 Deflected drainages and related lineaments 51
Fig. 3.13 Deflected drainages and related lineaments 51
Fig. 3.14 Lineaments deduced from deflected drainages (DD1–DD32) 52
Fig. 3.15 Eyed drainages and related lineaments 54
Fig. 3.16 Eyed drainages and related lineaments 54
Fig. 3.17 Lineaments deduced from eyed drainages (ED1–ED13) 55
Fig. 3.18 Compressed meanders and related lineaments 56
Fig. 3.19 Compressed meanders and related lineaments 56
Fig. 3.20 Lineaments deduced from compressed meanders (CM1–CM15) 56
Fig. 3.21 Drainage anomalies and Neo–Active tectonics 57

CHAPTER – IV
Fig. 4.1  Methodology 61
Fig. 4.2  Deltas 61
Fig. 4.3  Beach ridges 63
Fig. 4.4  Backwater modifications 65
Fig. 4.5  Creek modifications 66
Fig. 4.6  Raised beach 67
Fig. 4.7  Bay mouth bars 68

CHAPTER – V
Fig. 5.1  Locations of resistivity data 71
Fig. 5.2  Sample isoresistivity contours for 50m depth 71
Fig. 5.3  3D visualization of Resistivity data (50m depth) 72
Fig. 5.4  Isoresistivity contours of 25m depth 73
Fig. 5.5  3D GIS Image on isoresistivity contours of 25m depth 73
Fig. 5.6  Resistivity lows and breaks of 25m depth 73
Fig. 5.7  Isoresistivity contours of 50m depth 73
Fig. 5.8 3D GIS Image on Isoresistivity contours of 50m depth 73
Fig. 5.9 Resistivity lows and breaks of 50m depth 73
Fig. 5.10 Isoresistivity contours of 75m depth 73
Fig. 5.11 3D GIS Image on iso resistivity contours of 75m depth 73
Fig. 5.12 Resistivity lows and breaks of 75m depth 73
Fig. 5.13 Isoresistivity contours of 100m depth 74
Fig. 5.14 3D GIS Image on iso resistivity contours of 100m depth 74
Fig. 5.15 Resistivity lows and breaks of 100m depth 74
Fig. 5.16 Neo-Active tectonics revealed by resistivity data 74

CHAPTER – VI
Fig. 6.1 3D GIS image showing groundwater ridges and valleys - 1975 79
Fig. 6.2 3D GIS image showing groundwater ridges and valleys - 1980 79
Fig. 6.3 3D GIS image showing groundwater ridges and valleys - 1985 80
Fig. 6.4 3D GIS image showing groundwater valleys - 1990 80
Fig. 6.5 3D GIS image showing groundwater ridges and valleys - 1995 80
Fig. 6.6 Spatio – temporal variations of groundwater ridges and valleys 80
Fig. 6.7 Modification in groundwater ridge during 1975 - 1995 81

CHAPTER – VII
Fig. 7.1 Phenomenon of Doming 85
Fig. 7.2 Phenomenon of Arching 85
Fig. 7.3 Phenomenon of N–S / NNE–SSW faulting 90
Fig. 7.4 Phenomenon of NE–SW faulting 90
Fig. 7.5 Phenomenon of NW–SE faulting 92
Fig. 7.6 Visualization of Neo–Active tectonic model 92

CHAPTER – VIII
Fig. 8.1 3D GIS Image showing gravity anomalies and Neo–Active tectonics 97
Fig. 8.2A Distribution of epicentres in South India 99
Fig. 8.2B Historical seismicity versus Neo–Active tectonic model of the study area 99
Fig. 8.3 Isoseismal lines 99
CHAPTER IX

Fig. 9.1 Zones of gullying and sheet erosion 102
Fig. 9.2 Density sliced IRS-1B imagery showing soil erosion (1) in parts of Sector-I 102
Fig. 9.3 IRS-1B Imagery and map showing silted tanks (1) in Chennai region 103
Fig. 9.4 Density sliced IRS-1B imagery showing sediment dumping into ocean (1) in Chennai coast 103
Fig. 9.5 Coastal erosion 105
Fig. 9.6 Density sliced IRS-1B imagery showing leaky aquifer (1) in Chennai coast. 106

LIST OF TABLES

CHAPTER III

Table 3-1 Deflected drainages and related lineaments 52
Table 3-2 Eyed drainages and related lineaments 55
Table 3-3 Compressed meanders and related lineaments 56
