"Fear of the Lord is the Beginning of Wisdom"

It gives me an immense pleasure to express my heartfelt gratitude to my revered guide Dr. P. Malliga, Reader, Department of National Facility for Marine Cyanobacteria, Bharathidasan University, Tiruchirapalli. I am profoundly indebted to her not only for her expedient guidance, but also for stimulating me with her excellent research methodology, pragmatic approach, unstinted dedication and above all, her warm personal concern throughout my work. Her patience, kindness, gracious and tireless enthusiasm at every stage of my work cannot be expressed in words. The integrity and sincerity to work which she inculcated in me will take me a long way in my life.

It is a great privilege to be student of NFMC, Department of Microbiology headed by Dr. L. Uma. Her determination and painstaking efforts to make the department with necessary facilities are remarkable. Her moral advice and care during my stay were precious.

I thank Dr. M. Sundararaman, Reader, National Facility for Marine Cyanobacteria, Bharathidasan University, Tiruchirapalli. As a doctoral committee member, he was there to help me with his valuable advice for my queries. He showed me different ways to approach problems in research.

I am very grateful to all the staff members Dr. D. Prabaharan, Dr. T. Thirunulasundari and research scholars Mr. V. Viswajith, Ms. D. S. Prabha, and Technical assistants Mr. G. Sekar, Mrs. P. Susila, Mrs. P. Muthulakshmi and Mrs. R. Rajeshwari of NFMC, BARD for their kind cooperation during my research work tenure.
Words are insufficient to express my gratefulness to Dr. R. Valluvan, M.Sc. M.Phil. Ph.D., Principal, Thanthai Hans Roever College, Perambalur for having offered me the cordial treatment during the course of study.

I express my heartfelt love, thanks and sense of gratitude to my beloved parents Balaiah, Devakirubai, my dearest brother Thamburaj, sister's Regina Mary, Punitha Jothi, Baby Florence, my better half Ruth Merlin and my son Samuel Robinson for their kind cooperation and help extended during my research tenure.

I am indebted Mr. R. Ramachandran, Lecturer, Dept. of Physics, Thanthai Hans Roever College, Perambalur; P. Muthukrishnan, Lecturer, Dept. of Microbiology, P.S.G. College, Coimbatore; R. Malathi Sekar, Head Dept. of Biochemistry, Thanthai Hans Roever College, Perambalur; P. Jayaraju, Head, Dept. of Botany, J.J. College of Arts and science, Pudukotai; R. Senthil Kumar, Lecturer, Dept of Microbiology, Thanthai Hans Roever College, Perambalur for the care and suggestions, without her presence I would have not been able to complete this thesis at this time.

I praise almighty who has bestowed me the courage and strength to achieve this target. Last but not least I want to thank all those who have helped me directly or indirectly to make this work a success but missed a mention.

B. ANANDHARAJ
