ACKNOWLEDGEMENT

With immense pleasure, I wish to record my deep sense of gratitude and sincere thanks to my research supervisor and guide Dr.(Mrs) P.Geraldine Veronica Vimala Rani, for her infallible guidance, constant encouragement and valuable criticism. I also wish to place on the record my deep sense of appreciation for her intellectual freedom and timely support given to me.

I owe my thanks to Dr.G.R.Rao, Head, Dept. of Plant Sciences, Co-ordinator, School of Life Sciences and Dr.M.R.Chandran, Head, Dept. of Animal Sciences, Bharathidasan University for permitting me to carry out the research in the Department.

Grateful acknowledgement is made to Prof.T.S.Varadarajan, Head, Dept. of Zoology, Periyar E.V.R College, Trichy for his act of kindness, unfailing interest, providing infrastructural facilities and moral support during the tenure of my study.

It is indeed a pleasure for me to express my immense gratitude to Dr. K. Ramalingam, Research Dept. of Zoology, Govt. Arts College, Nandanam, Madras - 35. His vast wealth of experience and knowledge in these complementary domain have been precious to me and this thesis owes much to his open mindedness and his friendship. He has shown great consideration and care to go through all the revised drafts of my dissertation, suggesting at every stage a lively revision, an accurate observation and pointed conclusion.

The final version of the thesis owes much to the remarks and competence of Dr. Phillip A. Thomas, M.D., Ph.D., who was willing to reread the entire manuscript and made valuable suggestions. His infectious interest towards academic excellence was a source behind me that stimulated a great deal in my work.

I record my gratitude to Mr. S. Janarthanan, Research Scholar, Dept. of Biotechnology, Bharathidasan University, for his enormous amount of assistance right from the beginning of this work.

Thanks are due to the following research institutions for having offered technological resources : All India Institute of Medical Sciences (AIIMS), New Delhi for its Electron Microscopic facilities; Indian Institute of Technology (IIT), New Delhi and Madras; Central Electro Chemical Research Institute (CECRI), Karaikudi for their Atomic Absorption Spectrophotometer (AAS) facilities; Paddy Processing Research Centre (PPRC), Thanjavur for its Bomb Calorimetry facility.
For his guidance through the diverse problems that have arisen during research, it is a pleasure for me to thank Dr. S. Ajmalkhan, Reader, Centre of Advanced Studies in Marine Biology, Parangipettai.

Among the officials at Fish Farmers Development Agency Trichy, I must record my acknowledgement to Mr. M. Nalluchinnappan, C.E.O., and Mr. K. Kathiresan, E.O., for such help as they were able to transport prawns to Trichy many a time.

I would like to express my thanks to Dr. M. Edwin Chandrasekar, Co-ordinator and Mr. A. Alagappa Moses, Lecturer, Dept. of Environmental Sciences, Bishop Heber College, Trichy from whose help I have benefited considerably.

Dr. K. Balasundaram, Dept. of Zoology, Presidency College, Madras has helped me by his skill in microtechnique and photography and Mr. A. Abdul Rahman, Head, Research Dept. of Zoology, Govt. Arts College, Nandanam, Madras - 35 has also been a much-valued helper. I take this opportunity thanking them for having made our collaboration a fruitful.

A special note must be made of late Dr. G.F.X. David (AIIMS), New Delhi who with enthusiasm, patience and kindness provided me with encouragement and inspiration during the preparation of electron micrographs. My acknowledgement are due to Dr. A. Sundaram, M.D., Institute of Pathology and Electron Microscopy, Madras Medical College who also helped me in the preparation of electron micrographs.

I thank Dr. S. Saravana Babu, Dept. of Botony, Chikkiah Naicker College, Erode for having permitted me to make use of the Flame Photometer facility avilable under his purview, and also for his friendship and encouragement throughout the study period.

I acknowledge with gratitude the generosity of Dr. E. Papathanassiou, National Centre for Marine Research, Ministry of Industry, Energy and Technology, Athens, Greece and Dr. G. Vogt, University of Heidelberg, Germany who were kind enough to go through the electron micrographs and for having made many valuable suggestions.

Sincere gratitude is due to Dr. Michael Aruldoss, Dr. K. Balasundaram and Dr. K.Srinivasan of Post Graduate Institute of Basic Medical Sciences, Madras for having rendered technical expertise and critical suggestions.

It is my duty to express my gratitude to Dr. M. Krishnan, Dept. of Biotechnology and Dr. P. Subramanian, Dept. of Animal Sciences Bharathidasan University for their interest towards my work.
I am much indebted to all members of the Zoology Dept. of Periyar E.V.R. College, Trichy particularly Mrs. M. Manimekalai and Dr. (Mrs) K. Chandran for their support and interest during the period of research work.

I extend my gratitude to all the members of my guide’s family, particularly. Mr. P. C. Selvaraj, for his invaluable assistance, support and encouragement throughout the study period.

A word of gratitude to Dr. G. Subramanian, Scientist -in- charge, National facility for Marine Cyanobacteria, Bharathidasan University for having offered the photomicrographic facility.

I owe my indebtedness to Mrs. S.R. Vasugi, Dept. of Zoology, Sri Gnanambigai College for Women, Mayiladuthurai who enthused me to take up the field of toxicology.

It is my pleasing duty to offer my best thanks to the many friends who have afforded me assistance inorder that I might complete this work in a satisfactory manner especially to Mr. P. Loganathan, PGT, Kendriya Vidyalaya, Trichy, for his constant companionship and in running the computer programme to generate the statistical appendix tables; Dr. George John, Dept. of Zoology, A.A. Govt. Arts Collge, Musiri for his encouragement, useful discussions on statistical operations and assistance in many a way; Dr. K. Periaswamy, Research Dept. of Zoology, A.V.V.M. Sri. Pushpam College, Poondi for his constant encouragement, friendship and meticulous assistance in carrying this work through the press.

I would like to thank equally, a good many members like Dr. V. Veeraraghavan, Reader, Indira Gandhi National Open University, New Delhi; Dr. T.Kannan, M.D., D.M., Madras Medical College; Dr. A. Madhavan, M.B.B.S., Appollo Hospitals, Madras; Mrs. M.Kanthamani, Head, Dept. of Zoology, A.A. Govt. Arts College, Musiri; Dr. T.Venkatesan, Dept. of Botany, Mr.L. James, Dept. of Chemistry of Periyar E.V.R. College; Dr. (Mrs.) R. Sakundala, Dept. of Zoology, Govt. Arts College for Women, Pudukkotai; Mr. R.Anbarasu, Research Scholar, Dept. of Zoology, Govt. Arts College, Nandanam Madras - 35; Mr. Terrence Rebello, Research Scholar, CMFRI, Cochin; Dr. N. Tajudin, Dept. of Microbiology, Bharathidasan University; Mr. R. Sivashanmugam and Mr. V. Sidharthan. Research Scholars, Dept. of Anatomy, AIIMS, New Delhi and many others as well, whom space, unfortunately, does not allow me to mention and who, to differing degrees but always with ready availability, allowed me to profit from their experience during numerous and friendly exchanges.
It was a pleasure to work with all good people like Mr. Kingsly Thomas and Mr. P. Sadagopal of AKIN Software Consultants, Trichy; Mr. Nagarajan of NAGU Computers, Thanjavur; Mr. M. Nagarajan of LASER WORLD, Madurai; Mr. R. Rengasamy of PRINT HOME Screen Printers, Madurai; Er. A. Anbu, Chief Executive, J.R. Prints and Packs, Trichy; they produced this thesis with their usual care and high standards.

It is my bounden duty to express my indebtedness to my family members: my brother-in-law Mr. A.Venkatesan, Financial Analyst, Chicago, U.S.A., for having procured and sent all the fine chemicals that were required for the work, my sister-in-law Mrs. A Rama Ayyasamy, for her constant encouragement and support at times of need, my niece Miss. R. Neeraja, for the proof reading.

It is a matter of pride and pleasure to express my lovable gratitude to my brother-in-law Mr. S. Aravindan, for having brought out my thesis in an elegant manner through his LASER WORLD.

Lastly this thesis owes much to my wife Mrs. Uma Vijay and my son Master Sharad Balaji Karthikesh, whom I wish to thank especially for the prolonged patience they have shown during the entire research work, and for having accepted in good humour the restrictions therefore, imposed on family life.
