LIST OF TABLES

No. | Page
---|---
II.1 Changes in the field of Education | 37
IV.1 Blue Print of the Achievement Test | 135
IV.2 Weightage to Objectives | 135
V.1 The differential analysis of the pre test scores | 144
V.2 The differential analysis of the post test scores | 145
V.3 The differential analysis of post-achievement test scores with reference to 'Knowledge' objective | 147
V.4 The differential analysis of post-achievement test scores with reference to 'Understanding' objective | 148
V.5 The differential analysis of post-achievement test scores with reference to 'Application' objective | 149
V.6 The gain score of Control group and Experimental group in 'Knowledge' | 150
V.7 The gain scores of Control group and Experimental group in 'Understanding' | 151
V.8 The gain score of Control group and Experimental group in 'Application' | 151
V.9 The average gain scores of the Control group and Experimental group | 152
V.10 The percentage of the mean gain scores of the Control group and Experimental group | 153
V.11 The differential analysis of delayed post achievement test scores | 154
V.12 The differential analysis of the achievement scores of the 'Slow learners' | 155
V.13 The differential analysis of the delayed post test scores of the 'Slow learners'

V.14 The differential analysis of pre-test scores on 'Attitude towards the Study of English' scores of students of both Control group and Experimental group

V.15 The differential analysis of post-test scores on 'Attitude towards the Study of English' scores of students of both Control group and Experimental group

V.16 The differential analysis of post-test and pre-test scores on 'Attitude towards the Study of English' of the learners taught through CALL

V.17 The 'r' value of Control group and Experimental groups relating to Parental Encouragement

V.18 The 'r' value of Control group and Experimental groups relating to Interest toward learning a foreign language

V.19 The 'r'value of Experimental group relating to Attitude toward computer

V.20 The Intelligence scores of students of Control group and Experimental group

V.21 The Study Habit scores of students of Control group and Experimental group

V.22 The Interaction of Intelligence and method of teaching on Academic Achievement

V.23 The Interaction of Study Habits and method of teaching on Academic Achievement
