‘Gratitude is a God Honouring Attitude.’ With Great fear and awe being filled and flown in my heart, soul, body, mind and spirit, I thank God - the supreme - the creator of every being of the world for having showered his blessings and abundant grace upon me, to complete the project successfully.

‘A man without gratitude is like a man without vision.’ Many educators like me could earn this degree with the coordinated help of many scholars to whom I shall be grateful and thankful and my sincere prayers for them too.

‘Director of all efforts with proper counseling makes one to be successful.’ My sincere thanks to my research guide Dr. S. Kalavathy, Reader, Department of Botany, Bishop Heber College (Autonomous), Trichy, who is tireless in directing my efforts to set the objective in a novel way. Her involvement with my originality has triggered and nourished my intellectual maturity that I will benefit from, for a long time to come.

‘A leader is the one who knows, goes, and shows the way’. As rightly remarked, Alhaj. Er. A. Mohamed Yunus, Correspondent, M.I.E.T. Institutions, Trichy, who led me in to light of this research properly. I place on record my heartfelt gratefulness to him.

My sincere thanks to Dr. M. Marcus Diephen Boominathan, Principal and Prof. D. Prabakaran, Vice Principal, Bishop Heber College (Autonomous), Trichy, whose permission officiated as a key to this research.

‘A sapling becomes a big tree.’ My sincere thanks to Dr. M. Chenniappan, Ramakrishna Nursing Home, Trichy, and Dr. M. Chandrasekharan, RMC Neuro Centre, Trichy. I am much indebted to Dr. M. Chenniappan, for his valuable advice in the scientific discussions, supervision in synchrotron and critical comments on the script. I have been benefited by the advice of Dr. M. Chandrasekharan, who spared his time even for answering some of my basic questions about beam lines and synchrotron.

‘A good teacher is a great learner.’ I gratefully acknowledge Dr. K. Uma, Reader, Department of Zoology, National College, Trichy, and Dr. M. P. Saravanan, Reader, Department of Biochemistry, KAVP Medical College, Trichy, who have instilled and initiated this project to go successfully.
Dr. P. M. Mansure, principal, M.I.E.T. Arts and Science College, Trichy, whose spacious heart cheered my efforts to process this venture properly, successfully and to complete this task. I place on record my sincere gratitude to him.

My sincere thanks and grateful wishes to Dr. Kamaludeen, and Dr. Sheik Dawood, the former principals, M.I.E.T. Arts and Science College, Trichy, who are really reinforced courage in me to cross over the hurdles without losing interest.

Mere words are not sufficient to acknowledge the valuable support and immense help extended by Dr. V. Rajendran, ABC Hospital, Trichy, throughout the period of my study.

‘Union is Strength.’ Collective and individual acknowledgments are also owed to my colleagues at M.I.E.T. Arts and Science College, Trichy, whose presence somehow perpetually refreshed me memorably and helped me. Gratefully I remember Dr. M. Jeyaraj, Dr. A. Zahir Hussain, Dr. N. Manoharan, Dr. J. Sirajudeen, Dr. R. Senthil Kumar, Dr. S. Sheik Abdulla, Dr. T. Nargis Begum, Dr. A. Mohamed Saleem Gani, Mr. K. Vijaya Kumar, Mr. R. Senthil, Mr. V. Shankar, Mr. K. Senthil Kumar, Miss. G. Akilandeshwari, and Miss. M. Jerlin, for the pleasant times of working together.

I would like to reveal my sincere thanks to Dr. C. Sebastian Rajasekaran, Dr. F. Samuel Christopher, Prof. Akkammal Joha and Prof. V. Anand Gideon, Faculty members, Department of Botany, Dr. C. Ravichandran, Head, and Prof. A. Alagappa Moses, Senior Lecturer, Department of Environmental Science, and Dr. Susila Appadurai, Reader, Department of Zoology, Bishop Heber College (Autonomous), Trichy, for their keen interest and valuable suggestion in the progress of my work.

This project shall be incomplete if I forget to acknowledge the technical assistants, Mr. P. R. Suresh Babu, Mr. A. Rathina Kumar, Micro Labs, Trichy, Mr. Saravanan, Micro Labs, Madurai, Mr. D. Selvaraj, Ramakrishna Nursing Home, Trichy, and Mrs. M. Arifunisha, RMC Neuro Centre, Trichy, whose efforts are admirable.
‘One volunteer is better than the ten forced men.’ My sincere thanks to Dr. P. Sampath Kumar, Lecturer, Department of Biochemistry, SASTRA University, Kumbakonam, for his advice and his willingness to share his bright thoughts with me, which were very fruitful for shaping up my ideas and research.

My sincere thanks to Mr. Mani, the lab in-charge, for recording the results adequately and carefully.

‘Parents are the blessings of God’ who have sacrificed their lives in all aspects to their maximum – my sincere thanks to my father E. S. Arumugam, and my mother A. E. Mary.

‘Sky is the limit’ to express my appreciation to my wife V. Anita Mary, and my daughter V. Beulah Catharine, whose dedication, love and persistent confidence in me, has taken the load off my shoulders.

I would also acknowledge my brother A. Rajesh Kanna, and family, for having given me the encouragement, timely help and mental support being an added advantage to the success of this project.

It is a pleasure to express my gratitude wholeheartedly to Mr. K. Ravikumar, Mrs. Priya A. Raman, and Miss. R. Krishna Preetha, for their kind hospitality and moral support, which was a great advantage to bring out my thesis successfully.

With gratitude and immense pleasure I would like to reveal Dr. N. Saraswathy, Mumbai, and Mr. A. Shanmugasundaram, Lecturer, Department of Microbiology, Urumu Dhanalakshmi College, Trichy, for their meticulous efforts to complete this project work successfully.

I express my gratitude and special thanks to Miss. N. Pushpa, Lecturer, Department of Microbiology, Cauvery College for Women, Trichy, and Mrs. C. Anchana Devi, Ramakrishna Nursing Home, Trichy, for provide me the encouragement, timely help and mental support to the successful completion of this project.
‘As a tree is known by fruits’, my family members, my friends who devoted their time, money and energy to complete this project successfully are remembered with gratitude.

‘Students are the backbone of the future strength.’ Students are the task points who have co-operated to the fullest extent in the collection of experimental data sufficiently.

Moreover I am bound to thank all the research scholars of our team who enthusiastically tapped my energy into performance.

With the gratitude-laden heart and soul once again, I would like to thank everybody who were responsible for the successful realization of thesis. I express my apology as well if I had failed to mention any one personally.

A. VIJAYA ANAND
