CONTENTS

ACKNOWLEDGEMENT iii
LIST OF TABLES x
LIST OF FIGURES xii
LIST OF PAPERS PRESENTED/PUBLISHED xiv
ABBREVIATIONS xv

CHAPTERS

1. INTRODUCTION 1

1.1 Traffic Engineering in MPLS Networks 1
1.2 Our Approaches 6
1.3 Research Contributions 7
1.4 Thesis Outline 10
1.5 Conclusion 11

2. LITERATURE SURVEY FOR THE TRAFFIC ENGINEERING 13

2.1 Introduction 13
2.2 Traffic Engineering in Classical Telephone Networks 13
2.3 Evolution of Traffic Engineering in Packet Networks 16
2.4 Overlay Model 21
2.5 Constrained-Based Routing 22
BIBLIOGRAPHY

APPENDICES

A. Program for Knapsack Approach
B. Output for Knapsack Approach
C. Program for Bin Packing Approach
D. Output for Bin Packing Approach
E. Program for Bayesian Approach
F. Output for Bayesian Approach
G. Class and Object Diagram for Bin Packing and Bayesian Approaches
