Acknowledgement

The six years long voyage through the rough seas of research has come to an end. It is my pleasure now to have the opportunity to express my gratitude for all who made this journey smooth and enjoyable.

First and foremost, I wish to express sincere gratitude and appreciation to my supervisor Dr. A.S. Shahi, Professor, Department of Mechanical Engineering, SLIET, Longowal. His invaluable guidance, continuous inspiration and enthusiasm coupled with an integral view on research have made a deep impression on me. He manages to strike the perfect balance between providing direction and encouraging independence. He has given a purpose and meaningful direction to my career in the field of engineering. His enlightening guidance, intelligent approach, constructive criticism, wholehearted and ever available help for solving the problems motivated me in the right direction and inspires to produce best out of me. His guidance and kind heart has enabled me to achieve the determined target.

I owe my profound gratitude and indebtedness to Dr. Kulwant Singh, Head of Mechanical Engineering Department, Departmental Research Committee (DRC) members and Research Progress Committee (RPC) members for their valuable suggestions made during course of this research work.

I also thankfully acknowledge the reviewers as well as the subject editors related to my research publications for their constructive comments that have helped in adding more value to this work.

I am also thankful to my friend Mr. Kailash Sharma M/s K.N. Enterprises, Faridabad, India; Mr. Ajay Kumar Gupta, Sr. technician in Welding metallurgy lab., SLIET, Longowal; Mr. Navinder Singh, technician in Auto farm and machine lab., SLIET, Longowal; Mr. M.L. Dhiman and Mr. Madan Mohan Kumar for their co-
operation and imparting me technical knowhow and providing me the facility to pursue my present work.

It is a pleasure to acknowledge the support and help extended by all my colleagues; Dr. Rati Kant Bera, Mr. Bhuvnesh Bhardwaj, Mr. Vijay Kumar Sharma, Mr. Vivek Kumar, Mr. Sunil Kumar, Mr. Navneet Goyal, Mr. Tejinder Pal Singh, Mr. Sumit Kumar, Mr. Surinder Thakur, Mr. Harish Arya, Mr. Mohd. Majid, Mr. Subodh Kumar, Mr. Anshul Varshney, Mr. R.S. Ojha and Mr. Alok Kumar.

I cannot close these prefatory remarks without expressing my deep sense of gratitude and reverence to my dear parents, Mr. N.R. Sharma and Mrs. Kamlesh Sharma for their blessings and endeavour to keep my moral high throughout the period of my work. I would not have been able to enjoy this achievement fully without them. I am also thankful to all my family members for their love and support.

There is little doubt that without my wife’s (Mrs. Renu Sharma) help and encouragement this thesis would not have been possible. My son, Ayush missed his childhood activities and games he ever wanted to play and share with me. His love and affection encouraged me to finish my work quickly.

I thank them all and the others who genuinely offered generous help. I appreciate everyone whom I have thanklessly missed to remember and have contributed towards the completion of this work.

Above all, I express my indebtedness to the “ALMIGHTY” for all His blessing and kindness.

(Varun Sharma)
