List of Tables

Table 2.1 Comparison of experimental data of \( \rho \) and \( \eta \) of solvents with literature at different temperatures 48

Table 2.2 Selected neat IR frequencies of solvents 49

Table 2.3 IR stretching frequencies of \( F_1 \), \( P_1 \) and \( CL_1 \) 49

Table 2.4 Neat IR frequencies of \( F_2 \), \( P_2 \) and \( CL_2 \). 49

Table 3.1 Experimental \( \rho \) and \( \eta \) of binary systems 73

Table 3.2 Selected IR frequencies for binaries 74

Table 3.3 Experimental \( \rho \) and \( \eta \) for \( F_1 \) (0.01 and 0.001m) in ME + DMSO at 303.15 K 74

Table 3.4 Values of experimental data for \( F_1 \) (0.01 and 0.001m) in varying amounts of ME in ME + DMF at 303.15 K 75

Table 3.5 Densities and viscosities of 0.001 - 0.01m \( F_2 \) in equimolar mixtures of ME with DMSO and DMF at 298.15 K 75

Table 3.5.1 Experimental \( \rho \) and \( \eta \) in 0.01 and 0.001m for \( F_2 \) in ME + DMSO at 298.15 K 76

Table 3.5.2 Values of experimental \( \rho \) and \( \eta \) for \( F_2 \) (0.01 and 0.001m) in ME + DMF at 298.15 K 76

Table 3.6 Densities and viscosities of \( P_1 \) (0.01 and 0.001m) in ME and DMSO systems at 303.15 K 77

Table 3.7 Experimental data for \( P_1 \) (0.01 and 0.001m) in different % of ME in ME + DMF at 303.15 K 77

Table 3.8 Values of experimental \( \rho \) and \( \eta \) of \( P_2 \) (0.001 - 0.01m) in equimolar mixtures at 298.15 K 78

Table 3.9 Experimental data for 0.01 and 0.001m \( CL_1 \) in ME and DMSO binary systems at 303.15 K 78

Table 3.10 Densities and viscosities of 0.01 and 0.001m \( CL_1 \) in ME + DMF at 303.15 K 79

Table 3.11 Experimental data for 0.001 - 0.01m \( CL_2 \) in equal Concentrations of components at 298.15 K 79

Table 3.3.1 Variation in selected IR frequencies of \( F_1 \) (0.01 and 0.001m) in ME + DMSO 80
Table 3.3.2 UV data for F₁ in different percentage of ME in systems

Table 3.4.1 Selected IR frequencies of ternary system F₁ (0.01 and 0.001m) + ME + DMF

Table 3.5.1 IR data of some functional groups of system (0.001 - 0.01m) F₂ + equimolar solvents

Table 3.6.1 Selected IR stretching vibrations of three component system P₁ + ME + DMSO

Table 3.6.2 Maximum values of UV wavelength (λ<sub>max</sub>) and absorbance for P₁ in solvent systems

Table 3.7.1 An IR data of groups for P₁ (0.01 and 0.001m) + ME + DMF

Table 3.9.1 IR vibration frequencies of 0.01 and 0.001m CL₁ + ME + DMSO system

Table 3.9.2 λ<sub>max</sub> and absorbance for CL₁ in binary mixtures

Table 3.10.1 Selected IR data of 0.01 and 0.001m CL₁ in ME + DMF
