ACKNOWLEDGEMENTS

It gives me immense pleasure to sincerely thank everyone who helped me in various ways to complete this thesis. First and foremost, I wish to thank the Lord Almighty with a grateful heart, for providing me strength to take up this research work and complete it.

I am indebted to my research supervisor, Dr. A. Chitra, Professor, Department of Computer Science and Engineering, PSG College of Technology for her insightful guidance and constant encouragement throughout the course of my research work.

I express my sincere thanks to the management of PSG College of Technology and to Dr. R. Rudramoorthy, Principal, for the encouragement and for providing the necessary facilities to carryout this research work.

I would like to thank Dr. S.N. Sivanandam, Head, Department of Computer Science and Engineering and all my colleagues for their helpful suggestions and support. It is my duty to thank the students of the Department of Computer Science and Engineering for their assistance and help.

Finally, words cannot express my feelings of gratitude to all my family members, for their encouragement, moral support and sacrifice, without which this work would not have been completed. Their love and blessings were perpetual source of inspiration to me.

G. Sudha Sadasivam
