List of Tables

Table 1 Source of Kits
Table 2 List of parameters in patients with cardiovascular disease
Table 3 Clinical characteristics of the study subjects
Table 3.1 Non-modifiable risk factors
Table 3.2 Modifiable risk factors with treatment of study entry
Table 4 Baseline mean levels of the various lipids and lipoproteins ratios
Table 5 Baseline mean levels of the biochemical parameters examined in serum samples of all patients
Table 6 Percentage of high-sensitivity C-reactive protein among individuals with diabetes, hypertension, atherogenic dyslipidemia, metabolic syndrome and cardiovascular disease
Table 7 Percentage of fibrinogen among individuals with diabetes, hypertension, atherogenic dyslipidemia, metabolic syndrome and cardiovascular disease
Table 8 Percentage of tumor necrosis factor alpha among individuals with diabetes, hypertension, atherogenic dyslipidemia, metabolic syndrome and cardiovascular disease
Table 9 Percentage of interleukin-6 among individuals with diabetes, hypertension, atherogenic dyslipidemia, metabolic syndrome and cardiovascular disease
Table 10 Changes in mean total cholesterol and low-density lipoprotein cholesterol levels in patients after atorvastatin therapy
Table 11 Changes in mean total cholesterol and low-density lipoprotein cholesterol levels in untreated patients
Table 12 Changes in mean triglycerides levels in group II and group III
Table 13 Changes in mean very low-density lipoprotein cholesterol levels in group II and group III

Table 14 Changes in mean high-density lipoprotein cholesterol levels in group II and group III

Table 15 Changes in mean non-HDL cholesterol levels in group II and group III

Table 16 Changes in mean high-sensitivity C-reactive protein levels in group II and group III

Table 17 Changes in mean fibrinogen levels in group II and group III

Table 18 Changes in mean tumor necrosis factor alpha levels in group II and group III

Table 19 Changes in mean interleukin-6 levels in group II and group III

Table 20 Changes in mean apolipoprotein A-I levels in group II and group III

Table 21 Changes in mean apolipoprotein B levels in group II and group III

Table 22 Changes in mean lipoprotein (a) levels in group II and group III

Table 23 Changes in mean uric acid levels in group II and group III

Table 24 Changes in mean total protein, albumin, globulin and A/G ratio in group I, group II and group III
List of Figures

Fig. 1 Mean levels of total cholesterol in group I, II and III
Fig. 2 Mean levels of low-density lipoprotein cholesterol in group I, II and III
Fig. 3 Mean levels of triglycerides in group I, II and III
Fig. 4 Mean levels of very low-density lipoprotein cholesterol in group I, II and III
Fig. 5 Mean levels of high-density lipoprotein cholesterol in group I, II and III
Fig. 6 Mean levels of non-HDL cholesterol in group I, II and III
Fig. 7 Mean levels of TC to HDL cholesterol ratio in group I, II and III
Fig. 8 Mean levels of LDL cholesterol to HDL cholesterol ratio in group I, II and III
Fig. 9 Mean levels of TG to HDL cholesterol ratio in group I, II and III
Fig. 10 Mean levels of non-HDL to HDL cholesterol ratio in group I, II and III
Fig. 11 Mean levels of high-sensitivity C-reactive protein in group I, II and III
Fig. 12 Mean levels of fibrinogen in group I, II and III
Fig. 13 Mean levels of tumor necrosis factor alpha in group I, II and III
Fig. 14 Mean levels of interleukin-6 in group I, II and III
Fig. 15 Mean levels of uric acid in group I, II and III
Fig. 16 Mean levels of apolipoprotein A-I in group I, II and III
Fig. 17 Mean levels of apolipoprotein B in group I, II and III
Fig. 18 Mean levels of apolipoprotein B to A-I ratio in group I, II and III
Fig. 19 Mean levels of apolipoprotein B to HDL cholesterol ratio in group I, II and III
Fig. 20 Mean levels of lipoprotein (a) in group I, II and III
Fig. 21 Mean levels of creatine kinase-myocardial band isoenzyme in group I, II and III
Fig. 22 Mean levels of creatinine phosphokinase in group I, II and III
Fig. 23 Mean levels of aspartate transaminase in group I, II and III
Fig. 24 Mean levels of alanine transaminase in group I, II and III
Fig. 25 Mean levels of bilirubin in group I, II and III
Fig. 26 Mean levels of total protein in group I, II and III.

Fig. 27 Mean levels of albumin in group I, II and III.

Fig. 28 Mean levels of globulin in group I, II and III.

Fig. 29 Mean levels of albumin to globulin ratio in group I, II and III.

Fig. 30 Mean levels of urea in group I, II and III.

Fig. 31 Mean levels of creatinine in group I, II and III.
